Applications support	Yes
Colour temperature (min)	2700 K
Colour temperature (max)	6500 K
Energy efficiency scale	A to G
Luminous flux	400 lm
Suitable for indoor use	Yes
Energy efficiency class	F
Placement	Ceiling
Energy consumption per 1000 hours	5 kWh
Dimmable	Yes

Light colour type	Multi
Product colour	White
Bulb lifetime	25000 h
Type	Smart bulb

Full product description

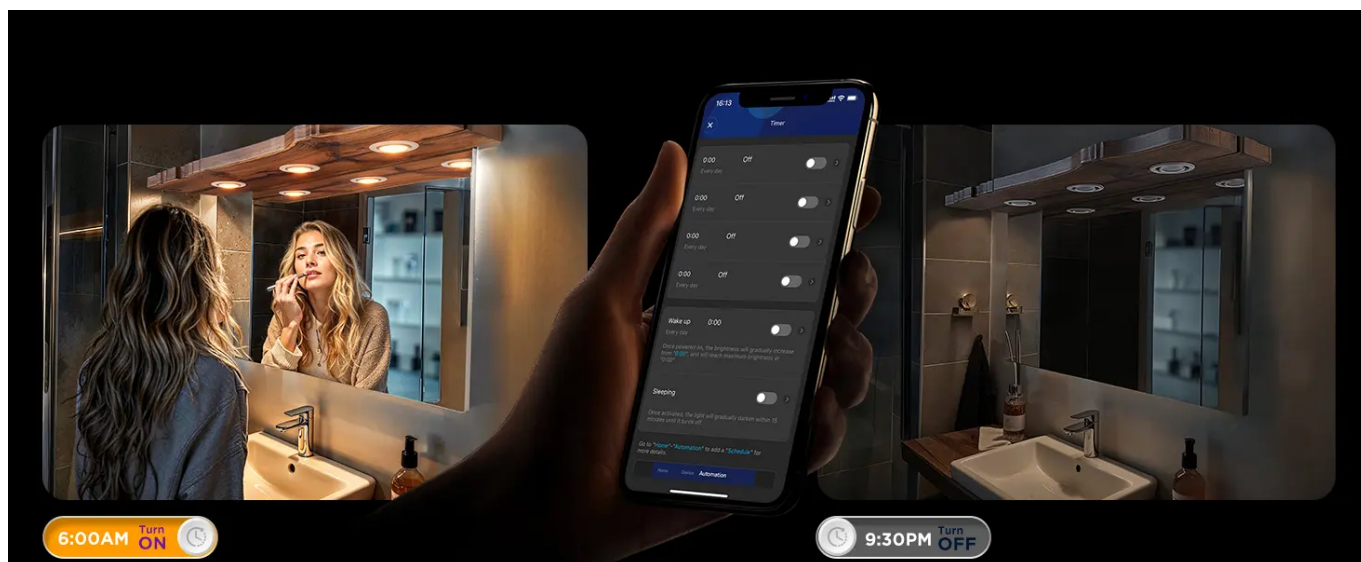

Govee H600D GU10 Wi-Fi

Govee H600D GU10 Wi-Fi

Full control via app and voice

Integrated Wi-Fi and Bluetooth connectivity allows you to **control the bulbs using the Govee app**, available on Android and iOS. Plus, with support for Alexa and Google Assistant, you can control the lights with your voice. Change colors, set schedules or adjust light intensity without having to get up from your seat.

Music mode for a unique atmosphere

Govee H600D bulbs offer a music mode that **synchronizes the lighting with ambient sounds**. Ideal for parties or a relaxing evening with your favorite music, the light automatically responds to the rhythm, creating dynamic lighting effects that perfectly complement the atmosphere.

16 million colors and adjustable light temperature

The Govee H600D bulbs offer a wide range of color choices, allowing you to select from **16 million colors**. You can customize the lighting to suit your mood or occasion, from cool blue tones to warm orange light. In addition, a light temperature range of **2700K to 6500K** allows you to adjust the intensity and color of the white light - perfect for both relaxation and work.

Adjustable 2700k to
6500K White Light

Low energy consumption and long service life

Each bulb **consumes only 4.8W**, making them energy efficient and environmentally friendly. With a high **brightness of 400 lumens**, these bulbs are the perfect choice to light up a room while saving on electricity bills. With a long lifespan, they're an investment for years to come.

16 Million Vivid
Colors
