Smartphone/tablet remote support	Yes
Material	Plastic
Package type	Box
Works with Amazon Alexa	Yes
Luminous flux	600 lm
Energy efficiency class	G
Mobile operating systems supported	Android
Power source type	Battery
Light colour type	Multi
Product colour	Translucent
Bulb lifetime	1.3 h
Type	Smart table lamp

Full product description

Govee Table Lamp 2 Pro Sound by JBL - Light and Sound in One

Discover the **Govee Table Lamp 2 Pro x Sound by JBL**, a combination of **LED** (Light Emitting Diode) light and **JBL** (James Bullough Lansing) **sound** in one stylish form. This **light** not only offers a unique RGBICWW color palette (Red, Green, Blue, Independent Control, Cool White, Warm White), but also powerful sound that brings the space to life. With a built-in **5200 mAh** battery, you can enjoy light and music without wires - wherever you want to create a unique atmosphere.

Colors that Create Mood

RGBICWW technology allows each LED to be controlled independently, creating smooth transitions and realistic lighting effects. **The 64 scene modes** allow you to customize the lighting for any moment - from relaxation to dynamic meetings. This is **a lamp** that responds to your mood and surroundings, bringing lights (lights) full of life and color.

Sound from JBL Speaker

With **Sound by JBL** technology, the device offers deep and clear sound with powerful bass. The built-in JBL speaker for Govee is designed to sync with the light to the beat of the music. As a result, **the Lamp 2 Pro** turns a space into a private concert - perfect for relaxing, studying or meeting with friends.

Smart LED - Effortless Control

Control the **LED lamp** from the **Govee Home** app, using a **Wi-Fi** (Wireless Fidelity - wireless local area network) or **Bluetooth** (short-range radio communication technology) connection. The **Matter** system (a universal connectivity standard for smart home devices) provides interoperability with **Alexa, Google Home, Apple Watch and IFTTT** (If This Then That - action automation). It's a smart control that gives you full control over the color, brightness and rhythm of the light.

Music and Relaxation

With **16** built-in **music modes** and a **white noise** function, the Govee Table Lamp 2 Pro will take care of the right mood at any time. The **music dreamview** feature combo allows the lamp to synchronize with other Govee devices to the beat of sound.

Style and Functionality in One

The Govee Table Lamp 2 Pro x Sound by JBL combines **aesthetics with practicality** to create a product that stands out in any interior. The subtle, soft LED light enhances the ambience of the room, while the built-in **JBL Speaker** sound adds character. This **smart led** solution works equally well in the living room, bedroom or office - whether you need relaxation, focus or background to your favorite music.
