Full product description

Govee H6022 RGBICWW Table Lamp - Smart lighting in a modern style.

The Govee H6022 RGBICWW Table Lamp is a smart table lamp that combines beautiful design and advanced lighting technology. With app control, voice assistants such as Alexa and Google Assistant, and support for Matter, Govee offers complete control over the light in your home.

RGBICWW multicolor lighting for infinite combinations

The Govee H6022 lamp features **RGBICWW technology**, which allows you to display multiple colors simultaneously and adjust the color temperature **from 2700K to 6500K**. You can create unique color combinations to perfectly match your mood or occasion. From warm, relaxing light to cool, bright illumination, this lamp will adapt to your needs.

Full control via app and voice control

With **2.4GHz Wi-Fi and Bluetooth** connectivity , you can control the lamp using the Govee app, available on Android and iOS. What's more, the lamp supports **Alexa, Google Assistant and Matter** for voice control. Change colors, set brightness and create schedules without having to get up from your seat.

High brightness and energy savings

The Govee H6022 lamp emits **light with a brightness of 500 lumens**, which provides enough light for reading, working or relaxing. At the same time, the lamp is energy efficient, making it an excellent choice for everyday use. It's modern lighting that combines style with functionality for comfortable use.

Lighting modes to suit every occasion

The **Govee H6022** lamp offers a variety of lighting modes that you can customize to suit your current needs. Whether it's a romantic evening, a dynamic light for playing with the kids, or subdued lighting for relaxing after a hard day - with just a few clicks on the app, you can choose the perfect mode. It's the perfect way to create the right atmosphere for any situation.
