Full product description

An immersive visual experience

Take TV viewing, gaming and movie nights to an unprecedented level with Govee RGBIC TV light bars. Harness the power of state-of-the-art RGBIC technology to create a vivid, immersive viewing environment that goes beyond the screen. The light bars are designed not only to illuminate, but also to bring entertainment to life.

Personalize your space

Your style is unique and your lighting should be too. With Govee RGBIC TV light bars, personalization takes center stage. Use the Govee Home smart app or your voice to control and customize your lighting. Whether it's setting the mood before a movie or enhancing your gaming experience, these lights adapt to your lifestyle. Compatible with both Alexa and Google Assistant, switching scenes or adjusting settings is as simple as speaking a command.

Expand your entertainment

Discover vivid RGBIC lighting effects specifically tailored to your TV setup. Govee RGBIC TV light bars not only enhance the viewing experience, but also expand it by introducing colors and effects that complement each scene. Whether it's the thrill of an action movie or the excitement of a video game, Govee H6046 TV Light Bars add depth and dimension to entertainment.

Dynamic music modes

Transform any room into a vibrant party scene with 8 dynamic music modes. Govee RGBIC TV Light Bars synchronize with music to create an audiovisual spectacle that pulsates, changes colors and dances to the beat of the music. Perfect for parties or just to enjoy music in a new and lively way.

Easy installation

Designed with ease of use in mind, these light bars offer a simple installation process that can be adjusted in three different ways to suit your lighting needs. With the included back brackets, the light bars can rotate freely, allowing for a wide range of lighting effects that illuminate the space exactly the way you want.

Notable enhanced features

Feel the difference with Govee's enhanced features. Featuring twice as many LEDs as other light bars on the market, the 14.94-inch light bars shine brighter and wider with an extra 4.33 inches of length compared to the competition. The product's enhanced look and texture, along with lighting on three sides, provide a comprehensive lighting effect that enhances the quality of the entertainment space.

Intelligent control via app

Take control with the Govee Home app. With just a touch of your smartphone, you can turn the light strips on and off, adjust the brightness, change the colors and choose from a variety of preset scenes. With endless customization options at your fingertips, creating the perfect atmosphere for any occasion has never been easier.
