Full product description

Govee RGBIC Wi-Fi Gaming Light Bars with smart controller

Turn up the lighting effects with one touch of a dial with these innovative **Govee gaming lightbars**. Enjoy the most advanced lighting effects while playing your favorite games. **The smart controller and voice commands** allow you to control the color, brightness and other settings of the lights. They also have a built-in **music and game sync mode**, allowing the lights to pulse and change colors according to music or game play.

Key Features of Govee H6047 RGBIC Wi-Fi Gaming Light Bars

- State-of-the-art design: Created specifically for gamers
- Smart Dial Controller: Timely responses at your fingertips
- Unique lighting effects: RGBIC technology with 16 million colors
- Sound visualization: Responds to the sounds of your games
- Game and Reset: 40 scene modes to excite and relax

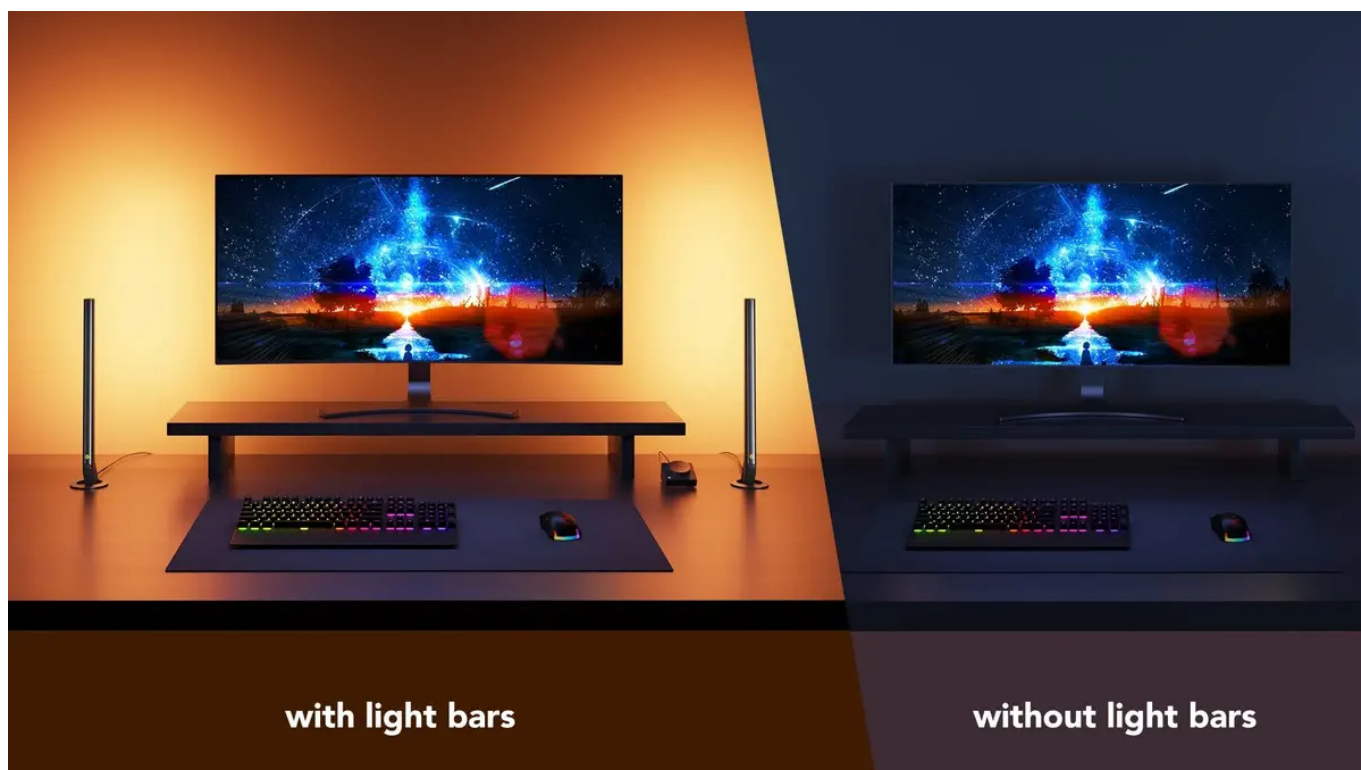

Synchronization of lighting with music

The **Govee H6047** standing light bars with smart controller have a built-in **music sync mode** that allows them to respond to sounds from speakers and headphones. With this feature, the **lights pulse and change colors in response to the music being played**, creating a dynamic and immersive lighting experience that enhances the overall mood and atmosphere of the room.

Creating unforgettable scenery for games

The **Govee H6047** Smart Controller Standing Light Strips are the perfect choice for gamers who want to create a memorable gaming setting. With customizable lighting **effects**, these light bars can be set to illuminate your gaming setup in a way that enhances the mood and atmosphere of the game. A smart controller allows you to adjust the color, brightness and other settings of the lights to match the style and theme of your game.

Voice control of colors, scenes and dynamic effects with Alexa or Google Assistant

Govee H6047 standing light bars with smart controller offer **voice control** of colors, scenes and dynamic effects via Alexa or Google Assistant. This feature allows you to control the lights with simple voice commands, without the need for a smartphone app or remote control. You can easily change the color of the lights to match your mood or room theme, or switch between different light scenes or dynamic effects such as flashing or pulsing.

With the help of **Alexa or Google Assistant**, you can also adjust the brightness and other settings of the lights, and turn them on or off with your voice. This hands-free control makes the **Govee H6047 Standing Light Bars with Smart Controller** a convenient and easy-to-use lighting solution for those who want to create **a personalized and dynamic lighting experience while playing games or listening to music**. In addition, integration with voice assistants means users can control their lights in a way that seamlessly integrates with their existing smart home setup.
