Manufacturer: XIAOMI

Referention number: DNXGKLLJGRMMHP

Information:

REDMI Buds 8 Active are lightweight, semi-in-ear wireless earphones designed for everyday music listening and calls. The ergonomic design provides comfort for long periods, while the compact case makes them easy to carry. The 14.2 mm driver with a titanium diaphragm delivers clearer vocals, crisp treble and more detail, and 5 EQ presets let you tailor the sound to your own preferences. Dual AI microphones improve call quality and reduce background noise. Bluetooth 5.4 ensures a stable connection, and the dual-device connectivity function makes it easy to switch between devices. The battery lasts up to 7 hours on a single charge and up to 37 hours with the case, while 10 minutes of charging is enough for around 2 hours of listening. IP54 protection guards against dust and splashes.

Full product description

In-ear design and comfort

REDMI Buds 8 Active are wireless headphones for everyday music listening and calls. **The semi-in-ear design** with an **ergonomic profile** reduces pressure, so you can wear them for longer at work, while travelling and during relaxation. The compact form also makes them easy to carry in a pocket or bag.

Key benefits

- **14.2 mm driver** – clearer treble, more detail and cleaner vocals and instruments.
- **Dual-mic call noise reduction** – better voice clarity during calls.
- **Up to 37 hours of battery life** with the case – less frequent charging during the week.
- **Bluetooth 5.4** – a more stable connection and lower power consumption.
- **Dual-device connectivity** – quick switching between your phone and laptop.
- **IP54** – resistance to dust and splashes in everyday use.

High sound quality

Sound is delivered by a **14.2 mm dynamic driver** with a titanium-coated diaphragm. This design improves response in the mid and high frequencies, making voices sound clearer and instruments retain more detail. Support for the **AAC** codec helps audio data transfer more efficiently without any noticeable loss of quality.

Sound equaliser

The headphones offer **5 sound equaliser presets** and the option to adjust the sound profile yourself. This means you can quickly switch to a sound with stronger bass, clearer vocals or a more balanced profile depending on the music genre. These settings are also useful when listening to podcasts, audiobooks or calls.

Clear calls

Dual microphones supported by artificial intelligence algorithms reduce background noise, so your voice remains more audible to the person you are speaking to. The design also reduces the impact of wind speeds of up to **6 m/s**, improving call comfort outdoors, while walking or commuting. In practice, this means fewer repetitions and smoother communication.

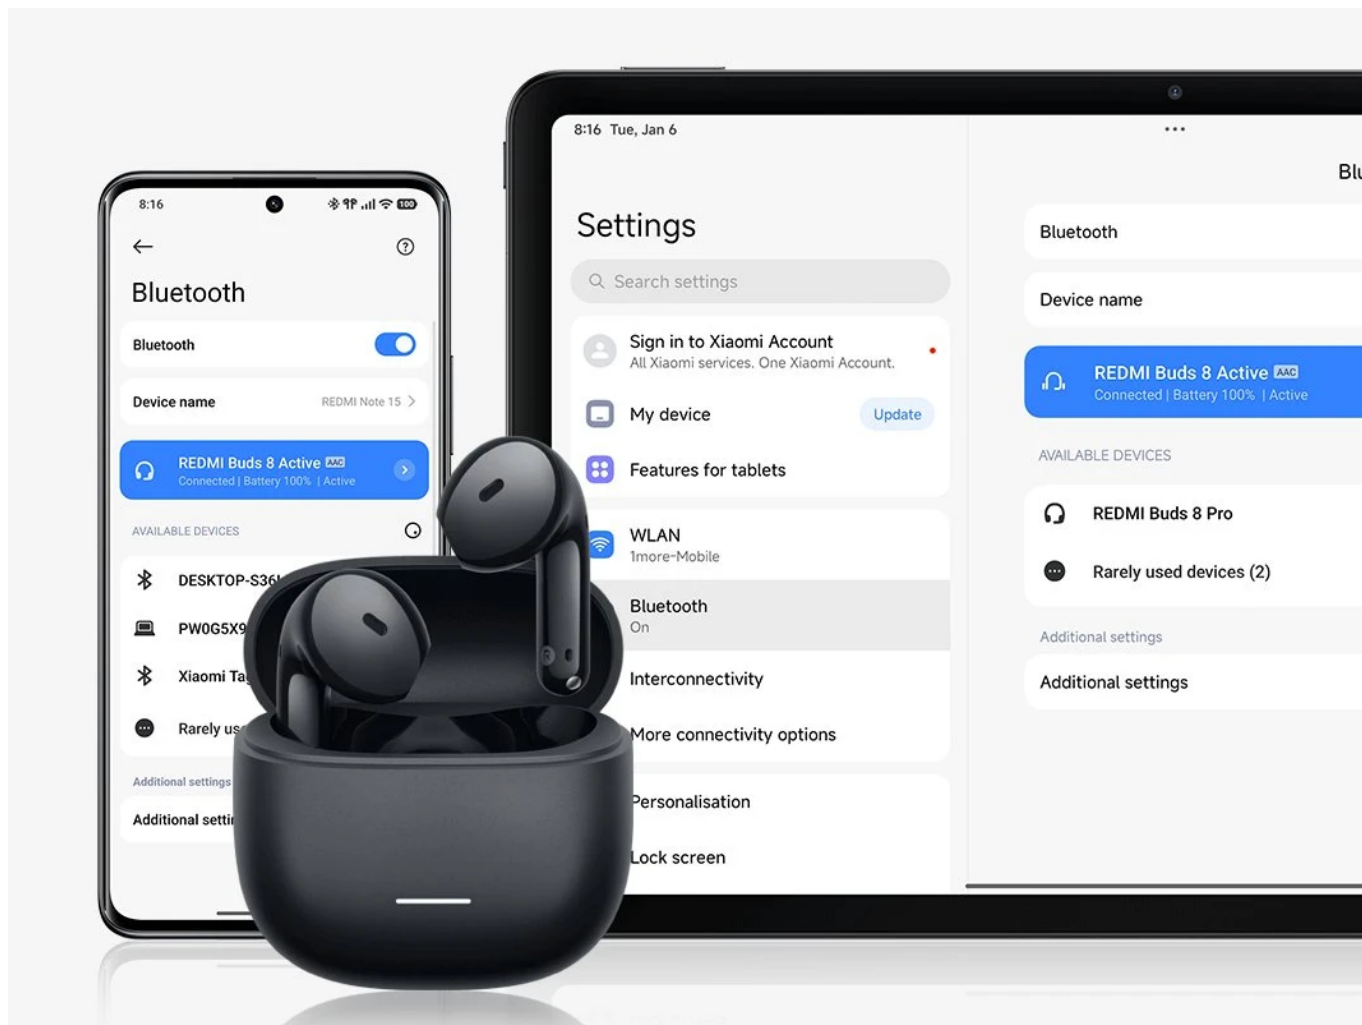

Long battery life

The case extends total battery life to **37 hours**, and one charge of the earbuds provides up to **7 hours** of playback. When time is short, **10 minutes of charging** is enough for around **2 hours of listening**. This is a good solution for people who use their headphones often throughout the day and do not want to keep an eye on a power socket.

Connection and control

Google Fast Pair reduces pairing to a single tap, and the **dual-device connectivity** function makes work and entertainment easier without manually switching the headphones. Settings can be changed in the Xiaomi Earbuds app, where sound equaliser adjustment, software updates and gesture customisation are available. Everything works conveniently, without unnecessary steps.

IP54 protection

Bluetooth 5.4 provides a more stable connection and lower transmission latency, which matters when listening to music and making calls. The **IP54** rating protects the headphones from dust and splashes, so they are suitable for commuting, the office and light exercise. It is a practical choice for people who want to use one pair of headphones in many situations.

Specification

- **Model:** M2537E1
- **Colour:**
 - Blue
 - Black
 - White
- **Frequency range:** 20Hz-20kHz
- **Dimensions and weight:**
 - **Weight of a single earbud:** 3.8 g (± 0.2 g)
 - **Dimensions of a single earbud:** 32.04 mm * 17.87 mm * 18.49 mm
 - **Weight of the charging case:** 28 g (± 2 g)
 - **Dimensions of the charging case:** 50 mm * 50 mm * 24.2 mm
 - **Total weight:** 35.6 g (± 2 g)
- **Charging:**
 - **Battery capacity:**
 - **Earbuds:** 37mAh
 - **Charging case:** 475mAh
 - **Charging port:** Type C
 - **Earbud input parameters:** 5 V □ 70 mA
 - **Charging case input parameters:** 5 V □ 500 mA
 - **Charging case output parameters:** 5 V □ 150 mA
- **Battery life:**
 - **Battery life on a single charge:** 7 hours
 - **Battery life with charging case:** 37 hours
- **Connection:**
 - **Wireless connection:** Bluetooth® 5.4
 - **Bluetooth protocols:** Bluetooth® Low Energy / HFP / A2DP / AVRCP
 - **Communication range:** 10m (open space free of obstacles)
 - **Speaker impedance:** 32Ω
- **Package contents:**
 - REDMI Buds 8 Active x 1
 - Charging case x 1
 - User manual x 1
