Price: **89.00 zł** gross / 72.36 zł net

Manufacturer: XIAOMI

Referention number: DNXGKLLJHRMMIO

Information:

REDMI Buds 8 Active are lightweight, semi-in-ear wireless earphones designed for comfortable everyday music listening and calls. The 14.2 mm driver with a titanium-coated diaphragm delivers clearer vocals, more detail and better treble, while 5 presets and equaliser customisation let you tailor the sound to your own preferences. Two microphones with AI noise reduction improve call quality, even outdoors. Bluetooth 5.4 ensures a stable connection, and dual-device connectivity makes it easy to switch between your phone and laptop. The battery lasts up to 7 hours, and with the case up to 37 hours; 10 minutes of fast charging is enough for around 2 hours of listening. IP54 protection guards against dust and splashes.

Full product description

In-ear design and comfort

REDMI Buds 8 Active are wireless earphones for everyday music listening and calls. **Semi-in-ear design** with an **ergonomic profile** reduces pressure, so you can wear them for longer at work, while travelling and during relaxation. The compact form also makes them easy to carry in a pocket or bag.

Key benefits

- **14.2 mm driver** – clearer treble, more detail and cleaner reproduction of vocals and instruments.
- **Dual-microphone call noise reduction** – better voice clarity during calls.
- **Up to 37 hours of battery life** with the case – less frequent charging during the week.
- **Bluetooth 5.4** – a more stable connection and lower power consumption.
- **Dual-device connectivity** – quick switching between your phone and laptop.
- **IP54** – resistance to dust and splashes in everyday use.

High sound quality

Sound is delivered by a **14.2 mm dynamic driver** with a titanium-coated diaphragm. This design improves response in the mid and high frequencies, so voices sound clearer and instruments retain more detail. Support for the **AAC** codec helps audio data transfer more efficiently without a noticeable loss in quality.

Sound equaliser

The earphones offer **5 sound equaliser presets** and the option to adjust the sound profile yourself. This means you can quickly switch to a stronger bass, clearer vocals or a more balanced profile depending on the music genre. These settings are also useful when listening to podcasts, audiobooks or calls.

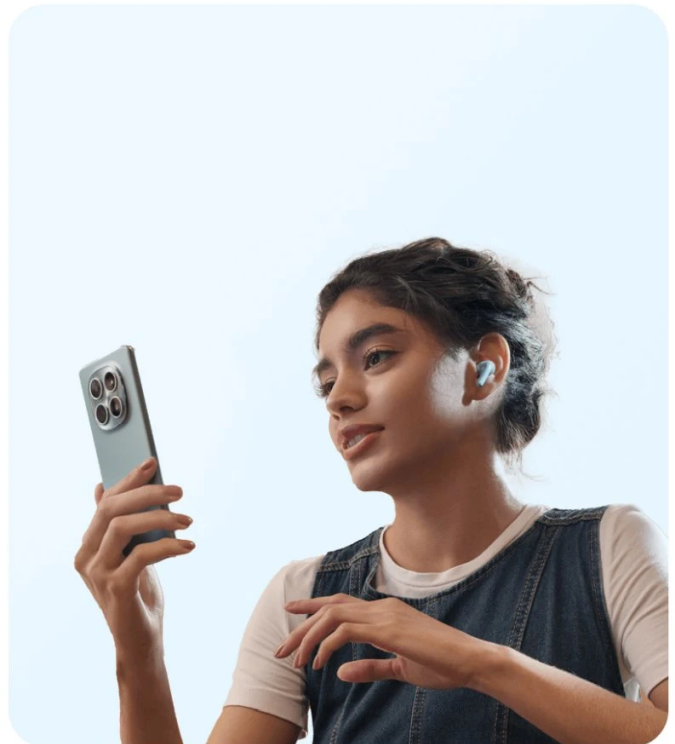

Clear calls

Dual microphones supported by artificial intelligence algorithms reduce background noise, so your voice remains more audible to the person you are speaking to. The design also reduces the effect of wind at speeds of up to **6 m/s**, improving call comfort outdoors, while walking or commuting. In practice, this means fewer repetitions and smoother communication.

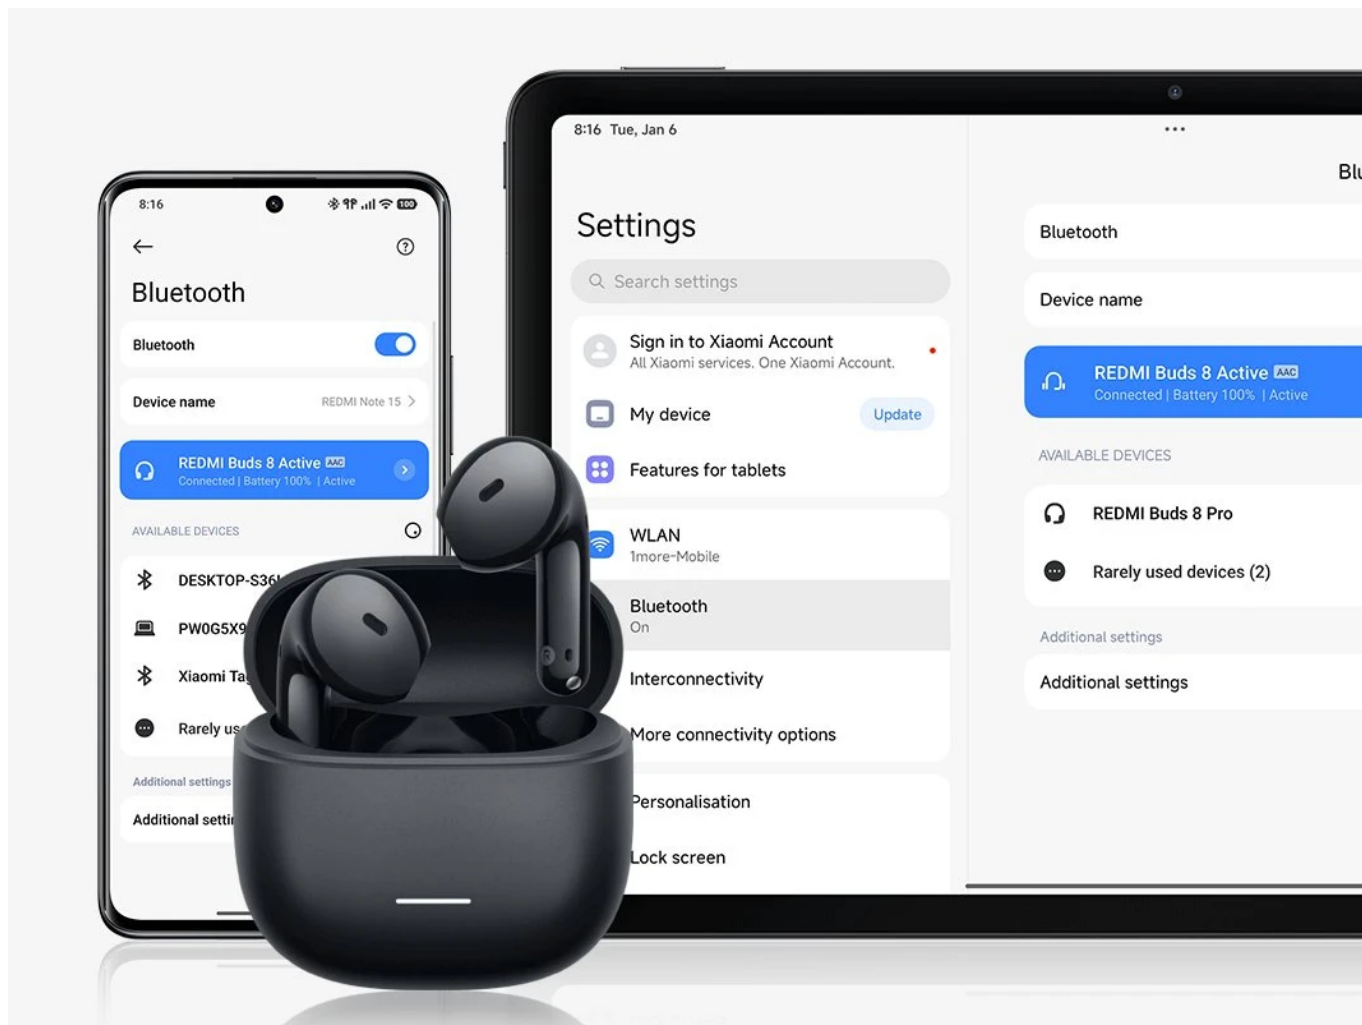

Long battery life

The case extends total battery life to **37 hours**, while a single charge of the earphones provides up to **7 hours** of playback. When you are short on time, **10 minutes of charging** is enough for around **2 hours of listening**. This is a good solution for people who use earphones often throughout the day and do not want to keep checking for a socket.

Connection and control

Google Fast Pair reduces pairing to a single tap, and the **dual-device connectivity** function makes work and entertainment easier without manually reconnecting the earphones. Settings can be changed in the Xiaomi Earbuds app, where sound equaliser adjustment, software updates and gesture customisation are available. Everything works conveniently, without unnecessary steps.

IP54 protection

Bluetooth 5.4 provides a more stable connection and lower transmission latency, which matters when listening to music and making calls. The **IP54** rating protects the earphones from dust and splashes, so they are suitable for commuting, the office and light exercise. It is a practical choice for people who want to use one pair of earphones in many situations.

Specifications

- **Model:** M2537E1
- **Colour:**
 - Blue
 - Black
 - White
- **Frequency range:** 20Hz-20kHz
- **Dimensions and weight:**
 - **Weight of a single in-ear earphone:** 3.8 g (± 0.2 g)
 - **Dimensions of a single in-ear earphone:** 32.04 mm * 17.87 mm * 18.49 mm
 - **Weight of the charging case:** 28 g (± 2 g)
 - **Dimensions of the charging case:** 50 mm * 50 mm * 24.2 mm
 - **Total weight:** 35.6 g (± 2 g)
- **Charging:**
 - **Battery capacity:**
 - **In-ear earphones:** 37mAh
 - **Charging case:** 475mAh
 - **Charging port:** Type C
 - **Earphone input parameters:** 5 V □ 70 mA
 - **Charging case input parameters:** 5 V □ 500 mA
 - **Charging case output parameters:** 5 V □ 150 mA
- **Battery life:**
 - **Battery life on a single charge:** 7 hours
 - **Battery life with charging case:** 37 hours
- **Connection:**
 - **Wireless connection:** Bluetooth® 5.4
 - **Bluetooth protocols:** Bluetooth® Low Energy / HFP / A2DP / AVRCP
 - **Communication range:** 10m (open space free of obstacles)
 - **Speaker impedance:** 32Ω
- **Package contents:**
 - REDMI Buds 8 Active x 1
 - Charging case x 1
 - User manual x 1
