Referention number: DNXXGKLMLFRMMJJ

Information:

The compact LED warning light is reliable emergency equipment for the car, bicycle, camping and home use. It provides immediate hazard warning thanks to very bright light visible through 360° from a distance of up to 1.6 km. It offers 9 operating modes, including SOS and rotating light, as well as a white torch function. The durable construction made of ABS, TPE and PC is impact-resistant, while the IP67 rating guarantees waterproofness and sealing. The built-in rechargeable battery charged via USB-C, strong magnet and folding hook ensure convenient, quick and versatile use in any situation.

Full product description

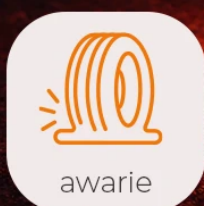

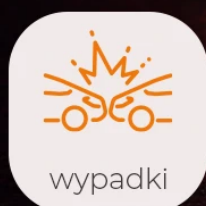

Immediate danger warning

The LED warning lamp is a key piece of equipment in emergency situations, such as **road accidents or sudden breakdowns**. Its intense light helps to quickly signal danger, which significantly increases the safety of all road users. The device provides support wherever **clear visibility** determines whether a collision is avoided.

LAMPA DROGOWA OSTRZEGAWCZA

doskonale sprawdza się w sytuacjach
wymagających natychmiastowego ostrzeżenia
przed niebezpieczeństwem

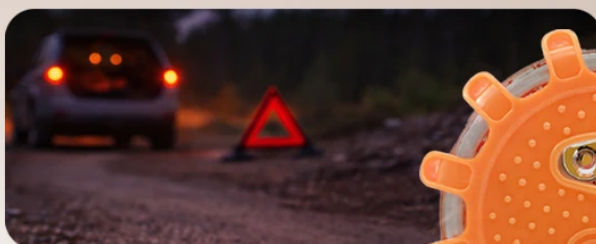

Durability in extreme conditions

The construction made of ABS plastic and a flexible TPE coating makes the device resistant to crushing and impacts. Thanks to its IP67 protection rating, the flare remains fully sealed and waterproof, allowing it to operate during heavy rain or snowstorms. A strong magnet and a built-in battery charged via USB-C mean the device is ready to use at any time.

ODPORNĄ NA EKSTREMALNE WARUNKI POGODOWE

• tworzywo ABS • elastyczna powłoka TPE • stopień ochrony IP67 •

Ładowanie
poprzez USB-C

Wodoodporność
i odporność na upadki

Magnetyczny haczyk
z tyłu do mocowania do
metalowych powierzchni

Thoughtful and multifunctional design

The device combines the functions of a warning signal and a torch thanks to the use of a **high-intensity white LED**. A sturdy rubber cover protects against shocks, and the **foldable hook** allows the lamp to be hung or used as a support. The inner ring consists of twelve AMBER LEDs that create a clear warning signal.

MOCNA I PRZEMYSŁLANA KONSTRUKCJA

Simple and intuitive operation

Preparing the lamp for use is quick and does not require specialist tools, which helps in stressful roadside situations. Charging is done via the popular USB-C connector, eliminating the need to replace batteries and increasing convenience. The sturdy housing ensures durability and sealing during everyday use.

ŁATWE ŁADOWANIE

Nine operating modes for complete safety

The lamp offers as many as **9 different lighting options**, including an SOS signal and rotating light, which can be changed with a single button. The use of **12 coloured and 3 white lights** helps adapt the signal to the specific incident. Thanks to the magnetic base, the flare can be quickly attached directly to the car body.

9 TRYBÓW MIGANIA

Wysoka efektywność i odpowiednia widoczność w ciemnościach

- ✓ 3 białe światła
- ✓ 12 kolorowych świateł

Visibility from a very long distance

The LED technology used means the signal is visible within a **360-degree radius at a distance of up to 1.6 km**. Such a long range gives other drivers the necessary time to safely carry out an overtaking manoeuvre. The device ensures that the breakdown site is **visible from afar**, minimising the risk of driving into an obstacle.

WIDOCZNOŚĆ W PROMIENIU 360°

Wysoka widoczność do

1,6 KM

Compact dimensions and portability

The small size of **10 cm in diameter and a low weight of 120 g** mean the lamp easily fits in a car glove compartment, backpack or bicycle bag. Such portability makes it suitable for hiking trips or camping, where it can serve as an additional light source. The **compact design** makes transport easy and ensures the warning signal is always at hand.

KOMPAKTOWE WYMIARY

Łatwa do przechowywania oraz transportu

Technical specification:

- **Contents:** LED road flare
- **Material:** TPR + PC + ABS hook
- **Power supply:** Built-in battery (USB-C charging)
- **Flashing modes:** 9 different modes
- **Light source:** Coloured LED
- **Additional functions:** Coloured and white light (various configurations), magnetic hook for mounting
- **Advantages:** Water resistance, drop resistance
