Voice control	Yes
Operating temperature (T-T)	-10 - 45 °C
AC adapter included	Yes
Package type	Box
Works with Amazon Alexa	Yes
Placement	Wall
AC input voltage	24 V
Power source type	AC
Product colour	White
Mounting hardware type	Wall
Watch case material	Plastic
Type	Smart panel

Full product description

Turn fantasy into reality

Using RGB, you can display only specific colors on your lights at a time. With **Govee's RGBIC** technology, you can bring your fantasy to life by selecting multiple colors at once for a smoother lighting experience.

A moving light show

Turn the sounds of your music or games into a symphony of flowing light with **Music Mode**. Choose from effects in the **Govee Home App** for lively entertainment while watching movies or playing games.

Rear lighting design

With a unique transparent coating, your panels will shine onto the walls from behind, adding a fluorescent glow to room and game decor like no other. Each panel can display **up to 6 colors simultaneously** for ultra-smooth flowing animated lighting.

Hassle-free installation

Install your light panels **without the need for additional tools**. The back glue sticks to smooth wall surfaces such as glass, wood, etc. Please make sure the surface is clean before setting up the light panels.

28 ready-made lighting effects

Choose from animated multi-color scene effects such as **Energetic, Rainbow, Fire and Aurora**. The **Govee Home app** will recognize the position of your panels for seamless rainbow effects throughout your project.

DIY lighting effects

Easily customize the **flow**, **color** and **direction** of your light panels. With the **Govee Home App's DIY** mode, we offer various options that allow you to create your lighting. Choose different colors and effects that are unique to you.
