Full product description

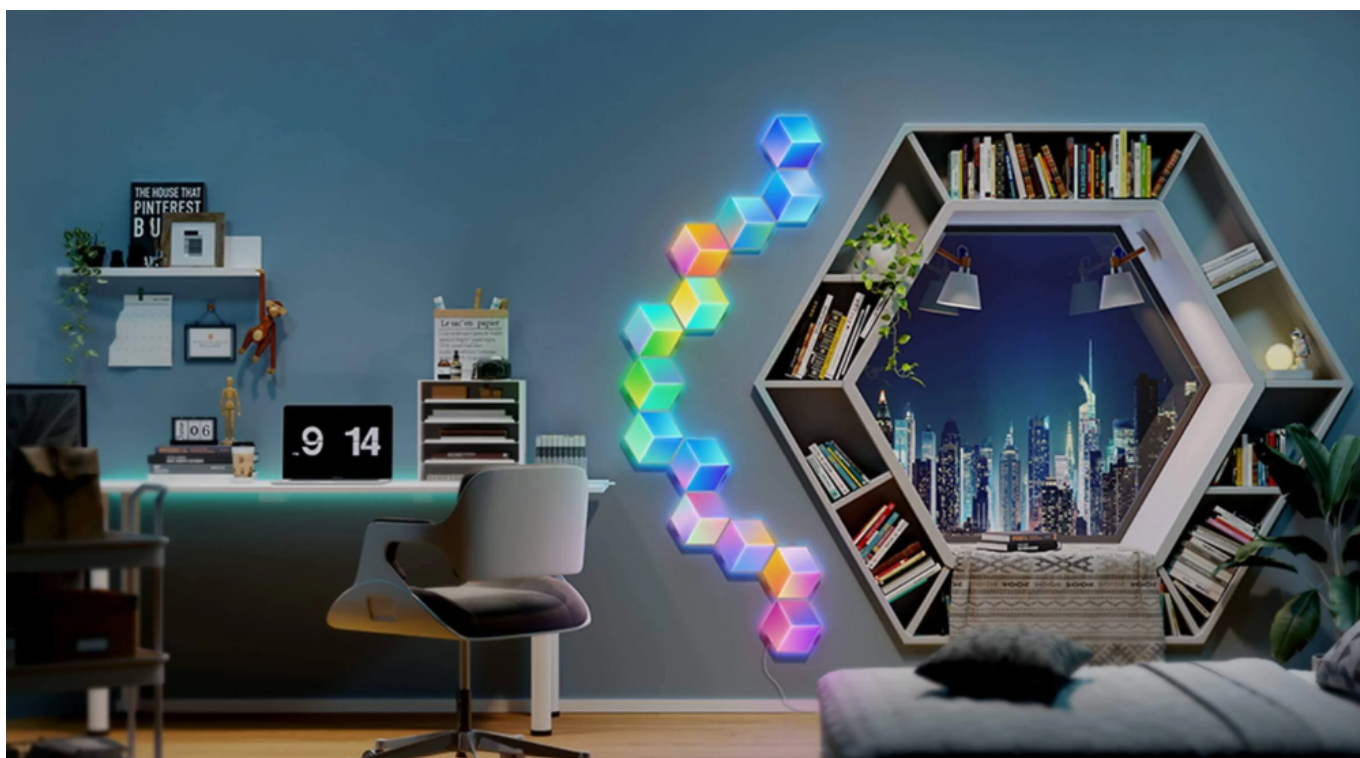

Govee H6066 Glide Hexa Pro

Govee Glide Hexa Pro LED light panels bring you brand new 3D lighting effects. With smart control, you can design your unique 3D lighting, change colors, effects, brightness and more with hexagonal RGBIC LED light panels. Rock the party with a multi-color selection of animated effects.

Extraordinary 3D light experience

Govee 's brand new 3D light panels are for those who want to take their space to the next level. These panels offer the most versatile customization options to decorate your walls with eye-catching 3D light effects. Create your own design or choose from the recommended ones in the **Govee Home App**.

Colors come alive with RGBIC

Watch the colors move through each panel with **innovative RGBIC technology** that allows the panel colors to flow together as one cohesive piece. Not only that, but there are many ways to control your panels. 3D light panels are a focal point waiting to be built by you. Create works of art that add dimension and depth to your walls.

Voice and remote control

Take advantage of a wide range of features in the **Govee Home App** to change colors, effects, movement and more from your mobile device. The panels are also compatible with voice assistants such as **Alexa and Google Home**, so you can control your project using only your voice.
