Full product description

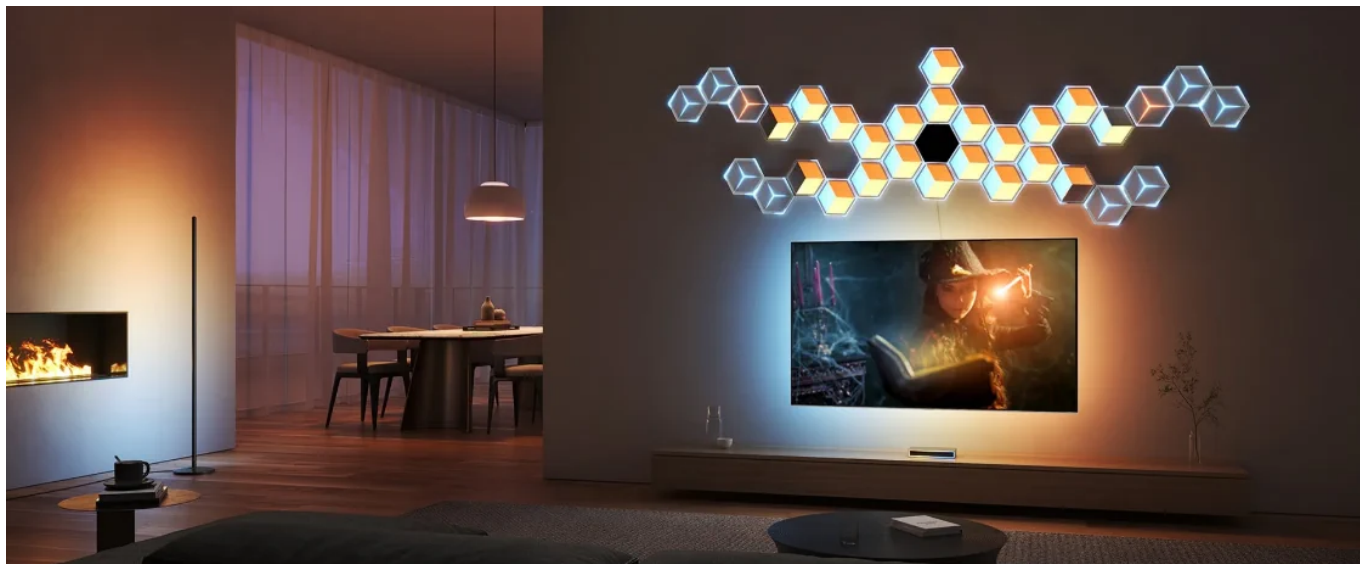

Innovative 3D Light Panels: H606A

Innovative 3D light panels: The **H606A** is a new and improved **version of the H6061** that transforms the look of **your game room**, taking wall decor to a whole new level. **These advanced LED gaming setups offer dynamic, smooth effects and a stunning 3D effect** for an unforgettable experience. If you're looking for a way to upgrade your gaming space, the **H606A is the perfect solution**.

Multifaceted Ultra Lighting

The H606A light panels are equipped with 129 LED beads, making it **Govee's flagship product**. With triple the light beads compared to previous versions, they provide vivid lighting effects for gaming, creating an unparalleled entertainment experience. **Whether you are an avid gamer or a home theater enthusiast, these light panels will meet all your expectations.**

Open Linking

GOVEE H606A Offering virtually unlimited self-assembly options, **Glide Hexagon Light Panels Ultra** puts the power in your hands to create the perfect gaming atmosphere. **With this solution, your creativity has no limits.**

2 Panel Color Options

Users can choose from two color options for the panels: **Meteor Grey**, with a layer that emits softer, softer lighting, or **Lunar White**, with a transparent coating that displays vivid, more intense colors. What's more, the two colors can be combined to create unique and personalized lighting effects.

Comprehensive Game Experience

Hexagon Light Panels Ultra support **Govee DreamView**, **Razer Chroma** and **Govee Desktop**, allowing you to sync your **Govee gaming lighting with the Razer Chroma RGB ecosystem**. This gives you **lighting effects** that intuitively respond to gameplay, creating an even more immersive gaming experience. **With the H606A**, your gaming sessions **will be more intense and immersive than ever before**.
