Bulb power	24 W
Product colour	Black
Type	Smart strip light

Full product description

Discover a whole new level of immersion with Govee H6097 TV Backlight 3 Lite

With RGBICW technology, the LED strip accurately reproduces the colors on the screen, making the lighting perfectly in sync with what you're watching. You can easily control the lighting with the Govee Home app, control box or voice assistants such as Alexa and Google Assistant.

Technology for vivid and accurate colors

With advanced **RGBICW technology**, the LED strip displays a rich color palette that perfectly reproduces the colors on the TV screen. The lighting dynamically adapts to the content, bringing the viewer into a whole new dimension of immersion. The light's varying colors create an atmospheric ambience, ideal for both movies and games.

Intelligent control and full control

The Govee TV Backlight 3 Lite is a device that you can easily control via Wi-Fi, Bluetooth, as well as **the Govee Home app**. With the help of voice assistants like **Alexa and Google Assistant**, you can control the backlight hands-free. This versatility of control means you can customize the backlight whenever you want, even when you're away from the TV.

Fisheye correction

Thanks to a special camera and **fisheye correction function**, the LED tape accurately reproduces colors on the screen, eliminating image distortion. The lighting dynamically adjusts to the movement on the screen, giving each scene a new, realistic dimension. Get even more immersion when watching movies or playing games.

Faster chip and excellent performance

The new chip in the Govee H6097 TV Backlight 3 Lite is **15-20% faster**, allowing for smoother operation and better color synchronization. As a result, the lighting responds instantly to changes on the screen, resulting in a better visual experience. The LED strip is also energy efficient, ensuring a long life for the device.
