Price: **319.90 zł** gross / 260.08 zł net

Manufacturer: EXTRALINK

Referention number: DNXGKMINERMMHO

Information:

Stay Beauty is a convenient mannequin for ironing and drying clothes, helping to quickly freshen, smooth and dry garments without using an ironing board. Thanks to the airflow and temperature control in the range of cool air, 50°C, 60°C and 70°C, the operation can be adjusted to different fabrics, from delicate to more demanding ones. Four weighted clips make it easier to position the material evenly, and the included elements allow you to care for shirts, trousers, blouses, jumpers, jackets or hats. Quiet operation and a compact design make the device ideal for home use.

Product features

Device type	prasownica
Continuous steam	Yes
Steam boost function	No
Product colour	White
Power	1400 W

Full product description

Convenient clothes care at home

The Stay Beauty ironing and clothes-drying mannequin helps you look after your everyday wardrobe without setting up an ironing board or spending a long time ironing. The device uses airflow to support smoothing the fabric, drying and refreshing garments. It is suitable for shirts, blouses, trousers and other wardrobe items that need to be quickly prepared to wear.

Temperature control for different fabrics

The device offers several operating settings, including cool airflow and temperatures of 50°C, 60°C and 70°C. This range allows you to match the mode to the type of material and the result you want to achieve. Lower settings are suitable for more delicate fabrics, while higher ones help with faster drying and smoothing of more demanding garments.

Weighted clips for better fabric positioning

The set includes four weighted clips that help keep the fabric in the right position while the device is operating. Thanks to them, the material can sit more evenly on the form, which helps to smooth shirts, sleeves, trouser legs and the lower parts of garments more comfortably. It is a practical solution especially for clothes that crease easily.

Clips with weights

4 pieces included

Set contents

The set includes the device base and mounting components designed for caring for different types of clothing. The package contains parts for shaping shirts and trousers, holders, weighted clips and fabric working elements. This ready-to-use set allows you to use the mannequin with many everyday garments without needing to choose additional accessories.

Quick refreshing, drying and smoothing

Stay Beauty helps shorten the time needed to prepare clothes after washing or before going out. The device supports three practical tasks: refreshing, drying and smoothing fabrics. As a result, it is useful both after taking clothes out of the washing machine and when a shirt or blouse needs a quick improvement in appearance after being stored in the wardrobe.

Quiet operation and use with many garments

The low noise level means the device can be used in a home wardrobe, utility room or bedroom without much discomfort. The mannequin is suitable for caring for blouses, jumpers, jackets, hats and more delicate fabrics such as silk or cashmere. The compact base makes it easy to place the equipment in the chosen spot and store it conveniently after use.
