Full product description

Extralink crimping press - ideal tool for precise crimping of sleeves and cable ends

The **Extralink crimping press** is a product designed for professionals and do-it-yourselfers. With a wide working range **from 0,25 mm² to 10 mm²**, ergonomic design and precise mechanism, the crimper will prove itself in any situation, providing durable and secure connections. **The set includes 1,200 pieces of sleeves.**

High quality workmanship and durability

The crimper **is made of durable steel**, which ensures its durability and resistance to heavy use. This tool is reliable and ideal for everyday use in the workshop, garage or construction site.

Ergonomic design - comfortable to work with

The press has **contoured, non-slip handles** that provide a secure grip and comfort while working. Its lightweight design allows for easy use, minimizing hand fatigue even with prolonged use.

Versatility and wide operating range

With a range of **0.25 mm² to 10 mm²**, the crimping tool handles different types of sleeves, both insulated and uninsulated. It's a **versatile tool** that will work well for electrical, assembly and service work.

Precise clamping mechanism

The crimping tool is equipped with a **ratcheting crimping assist system** that ensures secure and precise connections. The mechanism also allows you to adjust the crimping force and unlock the positive lock, making the tool even more functional.
