Price: **209.00 zł** gross / 169.92 zł net

Manufacturer: EXTRALINK

Referention number: DNXGKMMQJRMNHL

Information:

Extralink MaxJump 1 Power is a compact jump starter, powerbank and warning torch in one, ideal for the car, travel and camping. It can start petrol engines up to 6.0L and diesel engines up to 3.0L, while the 10000 mAh battery with two USB ports allows two devices to be charged at the same time. It offers 4 LED modes, a built-in compass and intelligent jump leads. A robust housing made from fire-resistant materials, IP66 rating and operation in temperatures from -30°C to 65°C ensure reliability in demanding conditions. The lightweight design and included case make transport and storage easy.

Full product description

Extralink MaxJump 1 Power Booster & Powerbank - support on the road and every day

Extralink MaxJump 1 Power is a compact device that combines the functions of a jump starter, power bank and warning torch. This design makes it useful both for everyday commuting and for longer journeys, camping or stopping in less accessible places. Its small dimensions and low weight make it easy to store in the car, backpack or glove compartment.

Advantages of Extralink Jump 1

- **Impressive starting power** - the device allows you to start vehicles with petrol engines up to 6.0L and diesel engines up to 3.0L.
- **Multifunctional LED lighting** - 4 operating modes are available: standard light, strobe, SOS and warning light.
- **Integrated compass** - helps with orientation in the field when you need extra support away from the car.
- **Mobile device power supply** - 10000 mAh capacity and two USB ports allow you to charge a smartphone, tablet or sat nav.
- **Compact design** - a weight of around 400 g makes it easy to take the device with you on the road.

Power and durability enclosed in a handy casing

Extralink MaxJump 1 Power helps start a car in situations that can catch you out – in winter, after a long stop or far from home. The use of polymer cells contributes to stable operation and a long service life, and a lifespan of over 1000 charging cycles means the device can accompany you for a long time.

A power bank that helps power your devices

Two USB ports allow you to charge two mobile devices at the same time, which is useful when travelling, camping and for everyday use. Extralink MaxJump 1 Power offers a convenient source of energy whenever your phone, tablet or GPS needs charging away from home or the office.

Designed for more demanding conditions

The device has been prepared for operation in a wide temperature range from -30°C to 65°C. The housing made of V0-class fire-resistant materials and the IP66 protection rating mean that the equipment performs well in conditions of increased humidity, dust and when used outdoors.

Technical specifications at a glance
