Full product description

Set of two peels

The Extralink Home set consists of two bamboo peels that make it easier to prepare, move and serve pizza. The two pieces allow you to conveniently separate the stages of work, for example by using one peel for raw dough and the other for the finished bake.

Bamboo wood

The peels are made of bamboo wood, whose low weight makes handling pizza easier during home baking. The natural colour of the material suits various kitchen styles, and the handle allows you to hold and control the peel comfortably while moving bakes.

Sharpened edge

The sharpened front edge helps slide the peel under raw dough or a baked pizza. This makes it easier to transfer the bake to a worktop, pizza stone or another baking surface. The wide working area offers stable support during carrying.

Smooth surface

The smooth surface of the bamboo peel helps reduce sticking of raw dough and makes it easier to slide the pizza to the chosen place. Before placing the dough, you can also dust the peel with a small amount of flour to improve its movement during preparation.

Different types of bakes

The peels can be used not only for pizza, but also when preparing bread, rolls and biscuits. The wide working surface helps carry different types of dough and finished bakes, making the set suitable for many everyday kitchen tasks.

Convenient serving

Each peel is 200 mm wide and 285 mm long, making it convenient to carry and serve home bakes. The handle makes the peel easy to grip and control, while the two-piece set allows both accessories to be used when preparing a meal together.
