Full product description

Smart lighting that changes the atmosphere of your home!

The Govee H612C RGBIC is a 10m long LED strip that will allow you to create the perfect atmosphere in your home with its advanced Wi-Fi and Bluetooth control features. With support for the Govee Home app and compatibility with Google Assistant and Amazon Alexa, you can easily adjust the colors, lighting modes and brightness to suit any situation.

Control via Wi-Fi and Bluetooth from the Govee Home app

The Govee H612C LED strip allows for easy control via **Wi-Fi and Bluetooth** with the Govee Home app. You can control colors, brightness and modes from anywhere, as well as create your own lighting scenes. What's more, with **64 predefined modes** and a sound response function, the lights can "dance" to the beat of your favorite music.

Advanced RGBIC lighting effects and color diversity

Thanks to RGBIC technology, the Govee LED strip displays **16 million colors**, allowing you to create unique effects. Unlike standard LED strips, Govee RGBIC allows you to control individual segments, adding a dynamic and multicolored touch to any room. In addition, the **transparent protective coating** makes the tape resistant to damage, while maintaining color intensity.

RGBIC Lighting Effects

Voice assistant compatibility and Matter support

The Govee H612C works with **Amazon Alexa** and **Google Assistant**, allowing you to seamlessly control your lighting with voice commands. With support for **Matter**, you can easily integrate the ribbon with various smart home systems. Whether you use your voice, an app or a classic button, you have full control over the lighting in your home.
