Information:

The foldable Black Forest beach trolley is a practical and versatile solution for conveniently transporting luggage, shopping, camping equipment, garden accessories and items for family trips. The spacious load area allows many items to be carried in one place, while sturdy wheels make it easy to move on pavements, the beach, campsites or in the garden. The foldable design saves space and makes storage and transport in the boot easier. Ideal for the beach, allotment, picnic, barbecue and everyday tasks.

Full product description

Foldable Black Forest beach trolley

The Black Forest beach and travel trolley is a practical solution for people who want to transport luggage, shopping, camping equipment, garden accessories or items needed during family trips with ease. Its foldable design means the product works well both at home and away, and once you have finished using it, it can be easily stored in a garage, cupboard, car or home utility room.

Convenient transport to the beach, allotment and campsite

The model has been designed for situations where carrying lots of things by hand is inconvenient. The trolley helps you take towels, blankets, drinks, bags, toys, picnic accessories or small travel equipment all in one place. As a result, it is ideal for trips to the water, family walks, stays at a campsite, visits to the allotment and everyday tasks around the home.

Spacious area for essential accessories

The roomy cargo section allows you to conveniently arrange various items without having to carry several separate bags. The trolley helps keep things organised during transport, contributing to greater comfort on trips and during everyday tasks. It is a good choice for people who often transport shopping, luggage, garden tools, beach textiles or leisure accessories.

Foldable design for easy storage

The ability to fold the trolley helps save space when the product is not in use. Its compact folded form makes it easier to transport in a car boot and store in a small space. This is especially useful during holiday trips, when every bit of luggage space matters.

Practical wheels for moving the trolley

The wheels make it easier to move the trolley across different surfaces, such as pavements, garden paths, campsite grounds or areas near the beach. As a result, transporting heavier or larger items requires less effort than carrying them by hand. The trolley helps you organise space conveniently during trips, shopping or leisure activities.

Versatile use throughout the season

Black Forest is suitable not only for the beach, but also for picnics, barbecues, garden work, carrying shopping, sports equipment or gear needed at the allotment. The product's versatile nature means it can be used by families, tourists, garden owners and anyone looking for a convenient way to transport everyday items.
