Price: **626.07 zł** gross / 509.00 zł net

Manufacturer: RANVOO

Referention number: DNKGKNNRKRNMKL

Information:

RANVOO PH3 AirJet is a 2-in-1 sonic toothbrush with irrigation functionality that combines brushing and rinsing, helping to effectively remove plaque, food debris and tartar, even from hard-to-reach areas. BubbleJet + Sonic technology uses sonic vibrations and microbubbles, supporting thorough cleaning of interdental spaces and the gum line. The gentle, ultra-thin DuPont bristles are kind to sensitive gums. The device offers 3 operating modes, a 2-minute timer, IPX7 water resistance, magnetic USB charging and a battery providing up to 60 days of use, making it ideal for both home use and travel.

Full product description

2-in-1 Cleaning

RANVOO PH3 AirJet is a 2-in-1 sonic toothbrush with an irrigation function, designed for thorough daily oral hygiene. The device combines brushing with rinsing, helping to remove plaque, food debris and tartar even from hard-to-reach areas. A dynamic stream of water and microbubbles supports cleaning between the teeth, while the minimalist design means the toothbrush looks great in any bathroom.

BubbleJet Technology

At the heart of the device is BubbleJet + Sonic technology, which uses sonic vibrations and a stream of microbubbles directed towards the teeth and gum line. According to the manufacturer, the toothbrush generates up to 110,000 microbubbles per minute, helping it reach deeper than standard brushing. This is a practical solution for people who want to combine the action of an electric toothbrush and an irrigator in one device.

Gentle DuPont Head

The ultra-thin DuPont bristles, 0.01 mm thick, work gently on the surface of the teeth and help clean between the teeth and along the gum line. The combination of soft bristles, sonic vibrations and a water stream supports more thorough removal of debris without excessive pressure. It is a good choice for people looking for an effective toothbrush that is also gentle on sensitive gums.

Up to 60 Days of Use

The toothbrush is equipped with a 1600 mAh battery, which allows it to run for up to 60 days on a single charge. Magnetic USB charging makes everyday use easier, and the travel lock protects against accidental activation in a bag or wash bag. The set includes replacement heads, so the RANVOO PH3 AirJet is suitable both for home use and while travelling.

3 Operating Modes

RANVOO PH3 AirJet offers 3 operating modes: gentle for gum protection, standard for everyday cleaning, and whitening for more intensive care. The built-in timer measures a 2-minute brushing cycle and reminds you to change area every 30 seconds. Thanks to IPX7 water resistance, the toothbrush is suitable for everyday use in the bathroom, and its elegant design suits both light and darker interiors.

RANVOO PH3 Bubble Technical Specification

Parameter	Details
Toothbrush type	Sonic
Operating time	Up to 60 days on a single charge with standard use
Sonic movements	22,000 movements/min
Toothbrush operating modes	Foam – foam mode, Soft – gentle mode, Clean – daily cleaning mode, White – whitening / surface stain removal mode.
Indicators	Selected operating mode indicator, device operation indicator, battery level indicator.
Functions	Sonic brushing, irrigation function, cleaning between the teeth, cleaning the gum line, brushing timer, last mode memory, travel lock, IPX7 water resistance, magnetic charging.
Power supply	Rechargeable.
Battery capacity	1600 mAh.
