Manufacturer: RANVOO

Referention number: DNXGKNNRJRMNJM

Information:

RANVOO PH3 AirJet is a 2-in-1 sonic toothbrush with an irrigation function that combines brushing with rinsing, helping to effectively remove plaque, food debris and tartar even from hard-to-reach areas. BubbleJet + Sonic technology uses sonic vibrations and microbubbles, supporting thorough cleaning of the spaces between teeth and the gum line. The gentle DuPont bristles, 0.01 mm thick, are kind to sensitive gums, and 3 operating modes allow you to tailor care to your needs. The 1600 mAh battery provides up to 60 days of use, while magnetic USB charging, a travel lock and IPX7 water resistance increase convenience.

Full product description

2-in-1 Cleaning

RANVOO PH3 AirJet is a 2-in-1 sonic toothbrush with an irrigation function, designed for daily, thorough oral hygiene. The device combines brushing with rinsing, helping remove plaque, food debris and tartar even from hard-to-reach areas. A dynamic stream of water and microbubbles supports cleaning between the teeth, while the minimalist design means the toothbrush looks great in any bathroom.

BubbleJet Technology

At the heart of the device is BubbleJet + Sonic technology, which uses sonic vibrations and a stream of microbubbles directed towards the teeth and gum line. According to the manufacturer, the toothbrush generates up to 110,000 microbubbles per minute, helping it reach deeper than standard brushing. It is a practical solution for people who want to combine the action of an electric toothbrush and an irrigator in one device.

Gentle DuPont Head

Ultra-thin DuPont bristles, 0.01 mm thick, work gently on the tooth surface and help clean between teeth and along the gum line. The combination of soft bristles, sonic vibrations and a water stream supports more thorough removal of debris without excessive pressure. It is a good choice for people looking for an effective toothbrush that is also gentle on sensitive gums.

Up to 60 Days of Use

The toothbrush is equipped with a 1600 mAh battery, allowing up to 60 days of use on a single charge. Magnetic USB charging makes everyday use easier, and the travel lock prevents accidental activation in a bag or wash bag. The set includes replacement heads, so the RANVOO PH3 AirJet is suitable both for home use and for travelling.

3 Operating Modes

RANVOO PH3 AirJet offers 3 operating modes: gentle for gum protection, standard for everyday cleaning, and whitening for more intensive care. The built-in timer measures a 2-minute brushing cycle and reminds you to change zone every 30 seconds. Thanks to IPX7 water resistance, the toothbrush is suitable for everyday use in the bathroom, and its elegant design fits both light and darker interiors.

RANVOO PH3 Bubble Technical Specifications

Parameter	Details
Toothbrush type	Sonic
Operating time	Up to 60 days on a single charge with standard use
Sonic movements	22,000 movements/min
