Price: **891.75 zł** gross / 725.00 zł net

Manufacturer: RANVOO

Referention number: DNKGKNNRHRMNHO

Information:

RANVOO PH5 Bubble is a practical 2-in-1 device that combines a sonic toothbrush and an irrigator, providing comprehensive daily oral hygiene. It helps effectively clean teeth, interdental spaces and the gum line, while the ultra-thin 0.01 mm bristles make it easier to reach hard-to-access areas. Its gentle operation is also suitable for sensitive gums. The built-in irrigator helps remove food debris and bacteria, including around orthodontic braces. The ergonomic design, 1600 mAh battery and up to 60 days of use on a single charge ensure convenience at home and while travelling.

Full product description

2-in-1 hygiene every day

RANVOO PH5 Bubble combines the functions of a sonic toothbrush and a water flosser, helping with the daily care of the entire oral cavity. The device supports cleaning tooth surfaces, interdental spaces and the gum line. This design means you can use one device instead of two separate accessories, making your daily routine easier and helping you stay fresh every day.

Sonic tooth cleaning

Sonic technology helps remove deposits, debris and plaque during daily brushing. The ultra-thin 0.01 mm bristles make it easier to reach hard-to-access areas, and the gentle operation of the device means the model is also well suited to people with sensitive gums. The combination of sonic movements and a water stream contributes to more thorough care than brushing alone.

Irrigation of hard-to-reach areas

The built-in water flosser helps flush out food debris and bacteria from places that a traditional toothbrush can reach only with difficulty. The water stream supports cleaning of interdental spaces, the gum area and places around orthodontic braces. This is a solution that enables more comprehensive hygiene and helps maintain fresh breath every day.

Convenience at home and on the go

The ergonomic shape means the RANVOO PH5 Bubble sits comfortably in the hand and is convenient for everyday use. The device is equipped with a 1600 mAh battery, which allows it to run for up to 60 days on a single charge. Such operating time helps reduce the need for frequent charging, and the device's design makes it easy to store and take with you when travelling.

A practical choice for the bathroom

The minimalist form and thoughtful design make the device fit well into everyday use. RANVOO PH5 Bubble helps care for teeth, gums and interdental spaces, and combining two functions in one device simplifies oral care. The model is available in subdued colour variants, making it easy to match to the style of your bathroom and your own preferences.

RANVOO PH5 Bubble technical specifications

Parameter	Details
