Manufacturer: RANVOO

Referention number: DNXGKNNRIRMNIN

Information:

RANVOO PH5 Bubble is a practical 2-in-1 device combining a sonic toothbrush and an oral irrigator, helping to provide comprehensive oral hygiene care. Sonic technology with ultra-thin 0.01 mm bristles supports effective removal of plaque and deposits, including in hard-to-reach areas, while its gentle action is suitable for sensitive gums. The built-in irrigator flushes food debris from between teeth, around the gums and around orthodontic braces, helping to keep breath fresh. The ergonomic design, 1600 mAh battery and up to 60 days of use on a single charge provide convenience at home and when travelling.

Full product description

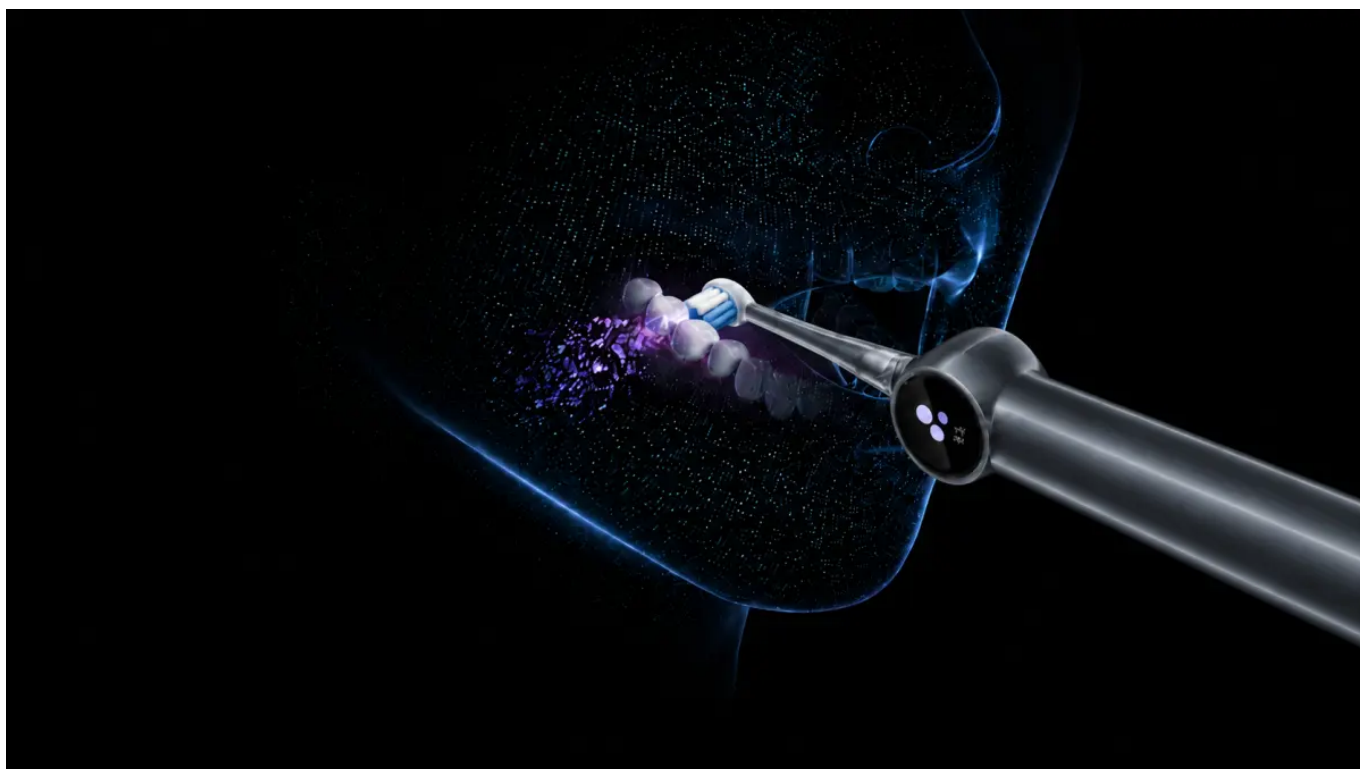

2-in-1 hygiene every day

RANVOO PH5 Bubble combines the functions of a sonic toothbrush and an irrigator, helping with the daily care of the entire mouth. The device supports cleaning of tooth surfaces, interdental spaces and the gum line. This design means you can use one device instead of two separate accessories, making your daily routine easier and helping you stay fresh every day.

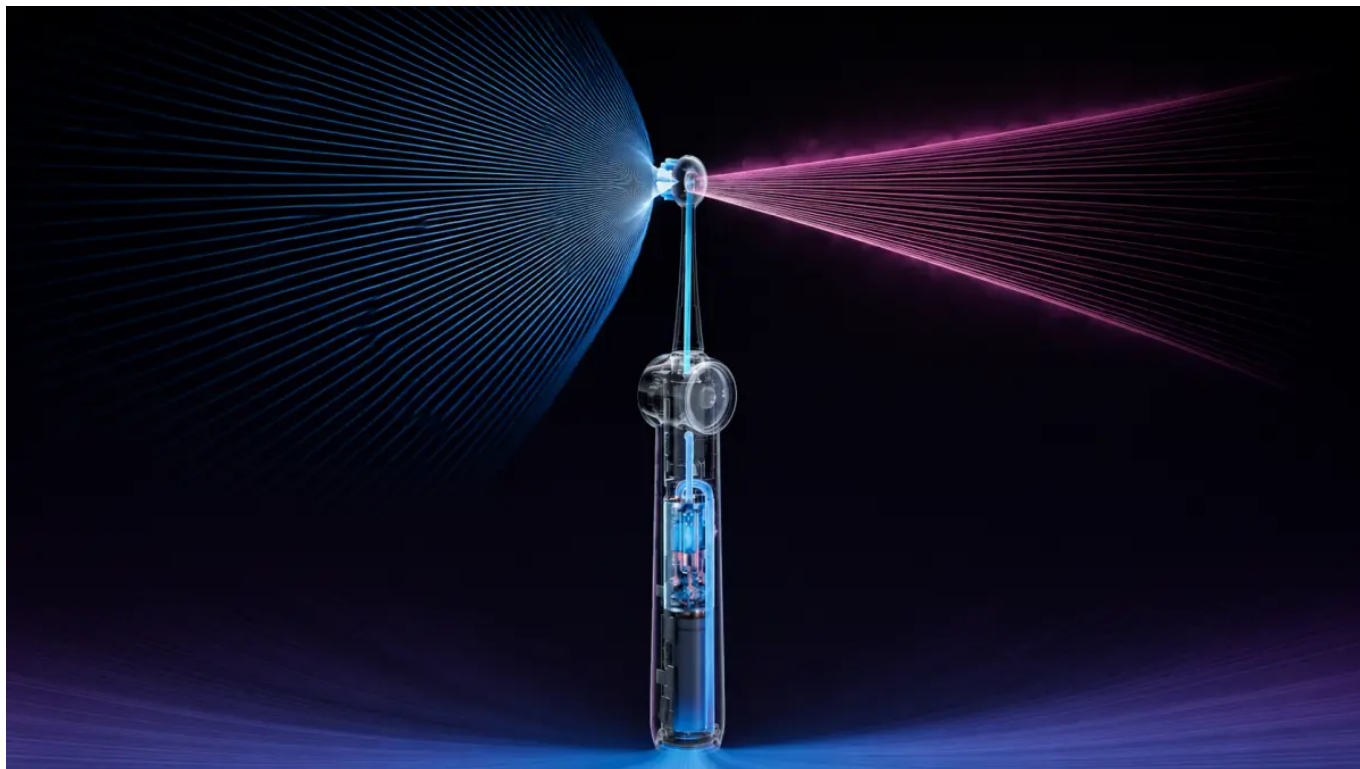

Sonic tooth cleaning

Sonic technology helps remove deposits, dirt and plaque during daily brushing. The ultra-thin 0.01 mm bristles make it easier to reach hard-to-access areas, and the gentle operation of the device means the model is also well suited to people with sensitive gums. The combination of sonic movements and a water jet contributes to more thorough care than brushing alone.

Irrigation of hard-to-reach areas

The built-in irrigator helps flush out food debris and bacteria from places that a traditional toothbrush can only reach with difficulty. The water jet supports cleaning of interdental spaces, the gum area and places around orthodontic braces. It is a solution that enables more comprehensive hygiene and helps maintain fresh breath every day.

Convenience at home and on the go

The ergonomic shape means the RANVOO PH5 Bubble fits well in the hand and is comfortable for everyday use. The device is equipped with a 1600 mAh battery, which allows it to run for up to 60 days on a single charge. Such operating time helps reduce frequent plugging into power, and the device's design makes it easy to store and take with you when travelling.

A practical choice for the bathroom

The minimalist form and thoughtful design make the device a good fit for everyday use. RANVOO PH5 Bubble helps care for teeth, gums and interdental spaces, and the combination of two functions in one device simplifies oral care. The model is available in subdued colour variants, making it easy to match to your bathroom style and personal preferences.

RANVOO PH5 Bubble technical specifications

Parameter	Details
Toothbrush type	Sonic
Operating time	Up to 60 days on a single charge with standard use
Sonic movements	21,600 movements/min
