Information:

RANVOO PH5 Bubble is a practical 2-in-1 device, combining a sonic toothbrush and an irrigator, which supports daily hygiene of the entire oral cavity. Sonic technology, ultra-thin 0.01 mm bristles and a water jet help remove deposits, plaque and food debris from the teeth, interdental spaces and gum line. The gentle action is also suitable for sensitive gums and around orthodontic braces. The ergonomic design, 1600 mAh battery and up to 60 days of operation on a single charge provide convenience at home and when travelling.

Full product description

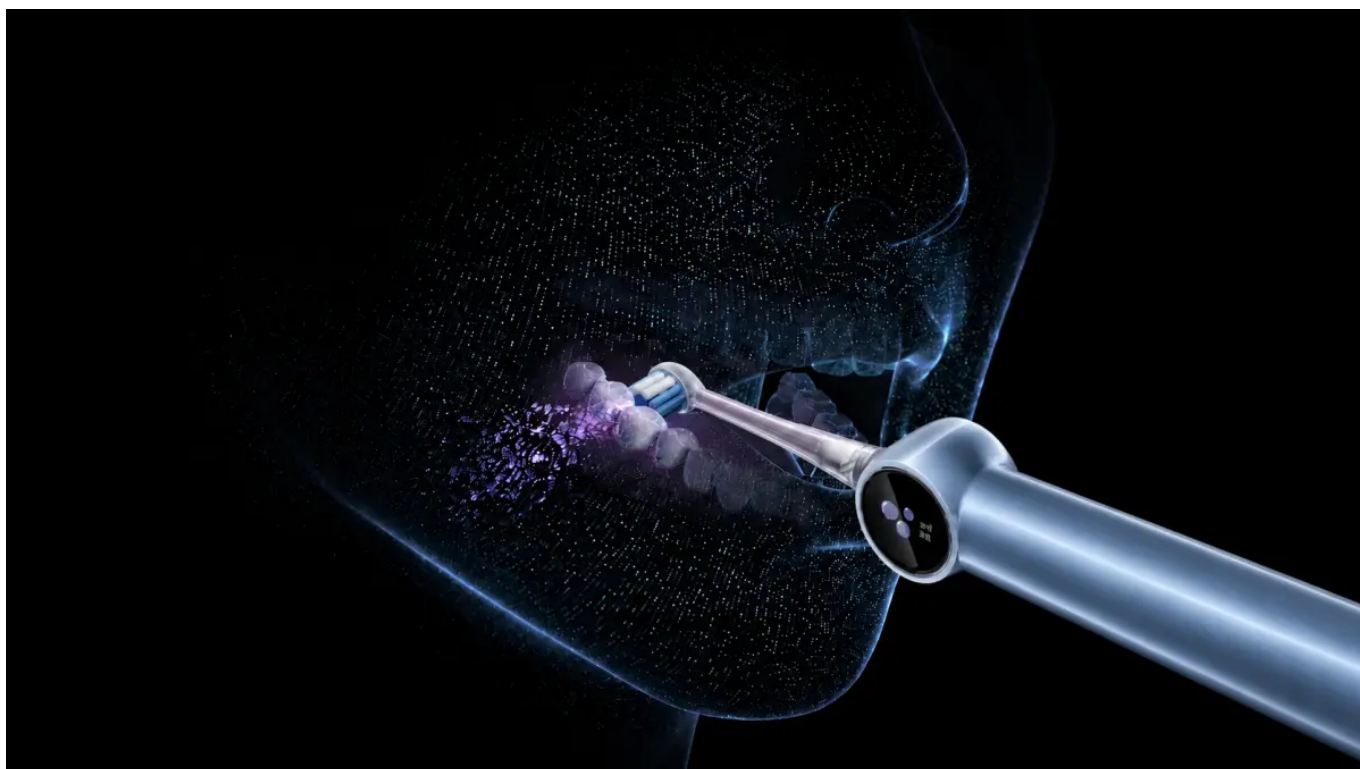

2-in-1 hygiene every day

RANVOO PH5 Bubble combines the functions of a sonic toothbrush and a water flosser, helping with the daily care of the entire mouth. The device supports cleaning tooth surfaces, interdental spaces and the gum line. This design means you can use one device instead of two separate accessories, making your daily routine easier and helping you stay fresh every day.

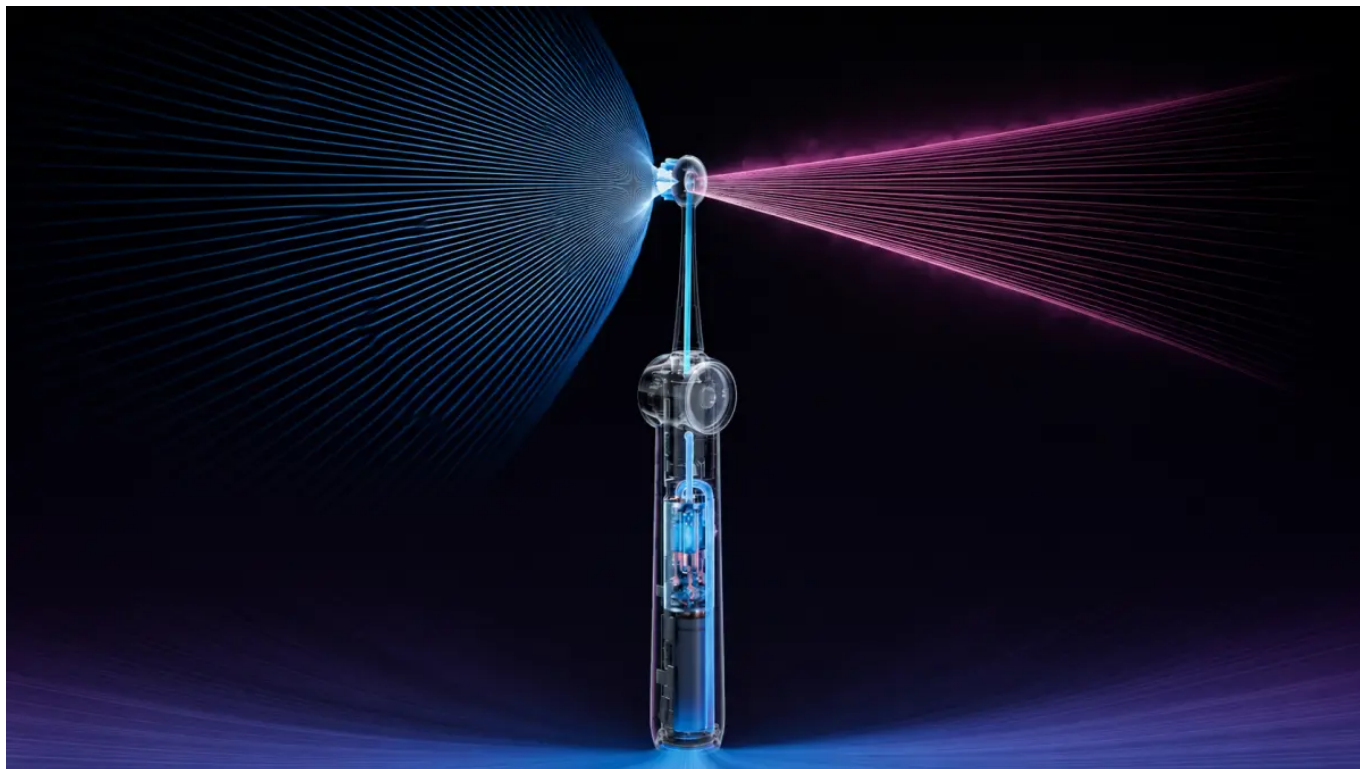

Sonic tooth cleaning

Sonic technology helps remove deposits, debris and plaque during everyday brushing. The ultra-thin 0.01 mm bristles make it easier to reach hard-to-access areas, and the gentle operation of the device means the model is also suitable for people with sensitive gums. The combination of sonic movements and a water stream contributes to more thorough care than brushing alone.

Irrigation of hard-to-reach areas

The built-in water flosser helps flush out food debris and bacteria from places that a traditional toothbrush can only reach with difficulty. The water stream supports cleaning of interdental spaces, the gum area and places around orthodontic braces. It is a solution that enables more comprehensive hygiene and helps maintain fresh breath every day.

Convenience at home and on the go

The ergonomic shape means the RANVOO PH5 Bubble sits comfortably in the hand and is convenient for everyday use. The device is equipped with a 1600 mAh battery, which allows it to run for up to 60 days on a single charge. Such operating time helps reduce frequent connection to power, and the device's design makes it easy to store and take on trips.

A practical choice for the bathroom

The minimalist form and thoughtful design make the device well suited to everyday use. RANVOO PH5 Bubble helps care for teeth, gums and interdental spaces, and combining two functions in one device simplifies oral care. The model is available in subdued colour variants, making it easy to match to the style of the bathroom and your own preferences.

RANVOO PH5 Bubble technical specifications

Parameter	Details
Toothbrush type	Sonic
Operating time	Up to 60 days on a single charge with standard use
Sonic movements	21,600 movements/min
