Information:

The game "Fishing for Fish" is an exciting dexterity game for children from 3 years old and the whole family. The moving, rotating board, the fish opening and closing their mouths, and the built-in music and sound effects make the gameplay dynamic and engaging. The set includes 4 fishing rods and 45 colourful fish, so several people can play at the same time, developing reflexes, concentration and hand-eye coordination. It is a great idea for active, screen-free fun and a perfect gift for children.

Full product description

Family game full of excitement

The "Fishing Game" is an engaging dexterity game for children aged 3 and over, as well as the whole family. The turquoise board, colourful fish and simple rules make the game quickly captivating for little ones. The players' task is to catch as many fish as possible using the rods, which adds an element of competition and lots of joy during shared play.

Moving board and music

Once switched on, the board starts to rotate and the fish open and close their mouths. The child must time it right to catch a fish on the hook. Built-in music and sound effects make the game more attractive, giving it a dynamic character and encouraging further rounds.

Fun for several people

The set includes 4 rods, so the game is perfect for shared play between siblings, friends or parents and children. Each participant can catch fish at the same time, which develops healthy competition, reflexes and the ability to focus on the task.

Colourful set

The set includes a fishing board, 45 colourful fish, 4 rods and places to put the caught pieces. The board measures 31.8 × 31.8 × 4.45 cm, and the rod length is 17.9 cm. The whole set is made of plastic, and the turquoise colour scheme fits well in a child's room.

A screen-free gift

The "Fishing Game" is a good gift choice for boys and girls. It supports hand-eye coordination, exercises patience, reflexes and concentration, and at the same time allows active play without using a phone or tablet. The product is intended for children over 3 years old and has CE and EN 71 markings.
