Price: **109.99 zł** gross / 89.42 zł net

Manufacturer: RANVOO

Referention number: DNKGKPNIRMNGP

Information:

RANVOO PH5 Hard is a replaceable sonic toothbrush head for people who prefer more intensive cleaning. The firmer bristles help remove deposits, plaque and food debris more effectively, while the small, rounded design makes it easier to reach the back teeth and areas along the gum line. The Hard variant is particularly suitable for stains caused by coffee or tea. The head is compatible with RANVOO PH5 and, to maintain effectiveness, should be replaced approximately every 3 months.

Full product description

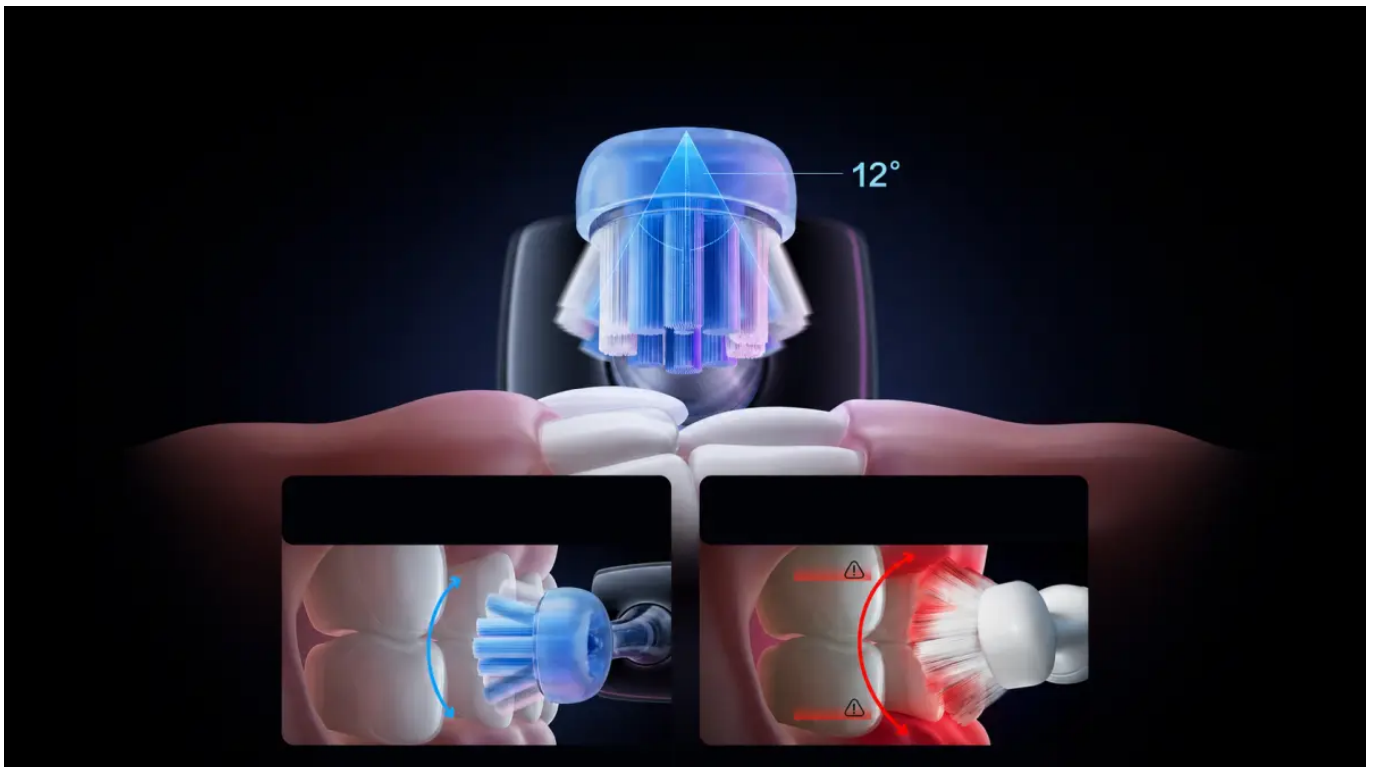

More intensive cleaning

The RANVOO PH5 Hard head was created for people who prefer stronger brushing. The firmer bristles help remove deposits from the tooth surface more effectively.

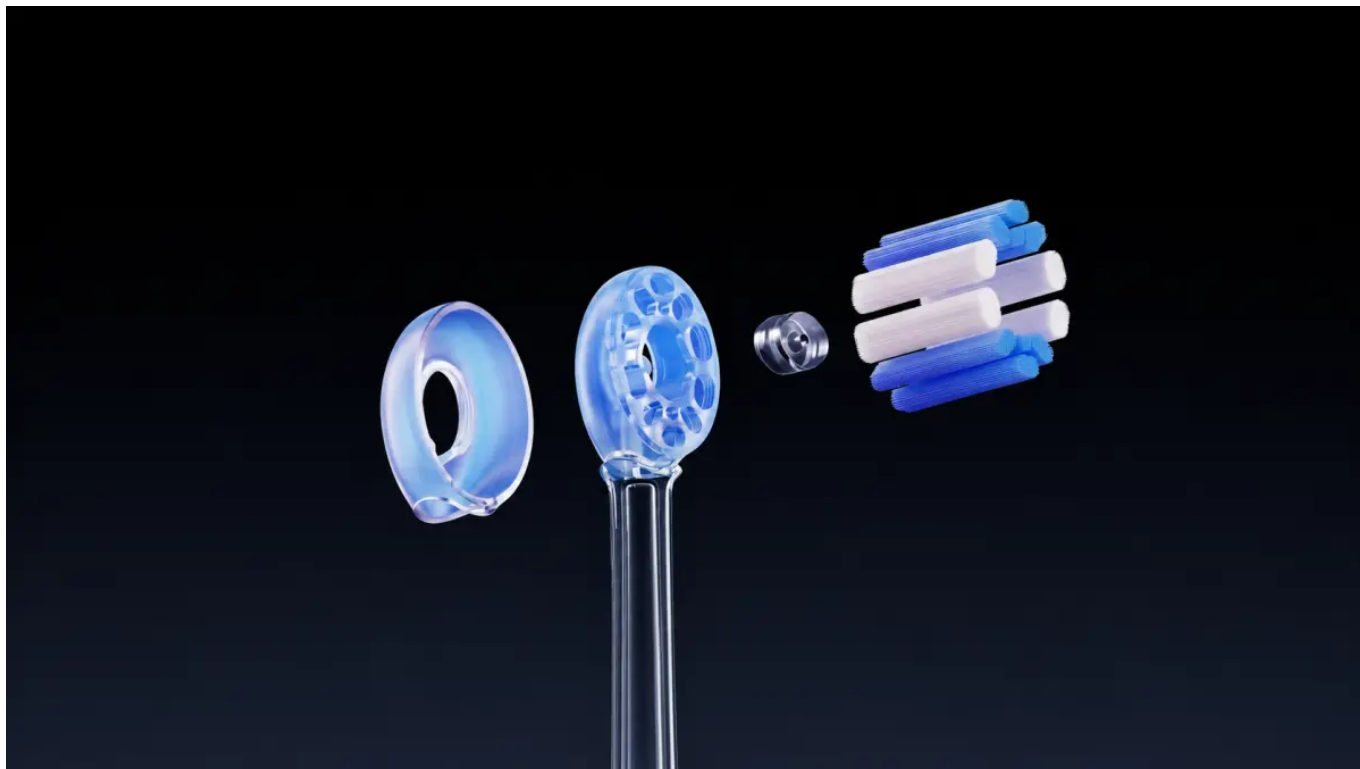

For more demanding care

The Hard variant is suitable for more intensive cleaning, especially for people who drink coffee or tea, or who often struggle with surface stains. However, it is not recommended to press the head too hard against the teeth and gums.

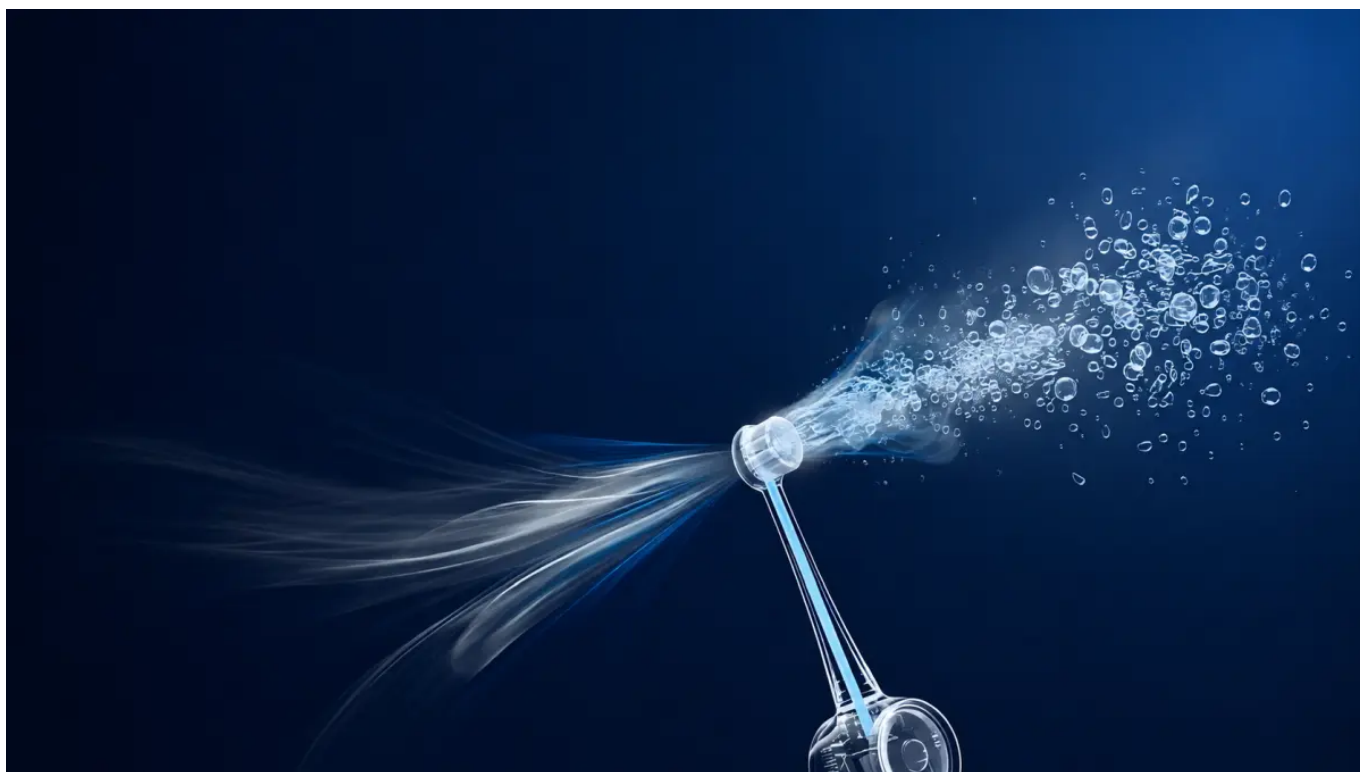

Shape that makes it easier to reach the teeth

The small, rounded head design makes it easier to reach hard-to-access areas in the mouth. It helps clean the back teeth and the spaces along the gum line.

Compatibility with RANVOO PH5

The Hard head fits the RANVOO PH5 toothbrush and works with its sonic mode. During brushing, it helps remove plaque, deposits and food residue.

When to replace the head

To maintain hygiene and cleaning effectiveness, the head should be replaced regularly. The recommended replacement interval is about 3 months, or sooner if the bristles are frayed, splayed or deformed.
