Manufacturer: EXTRALINK

Referention number: DNXGKOIJMRMMMQ

Information:

The Extralink MagSafe 5000 mAh powerbank is a compact and lightweight power source for compatible iPhones. It offers wireless charging up to 15 W with magnetic attachment, which makes it easy to align securely with the phone, including in a magnetic case. The slim 6,9 mm body and 105 g weight mean it fits easily in a pocket and does not add much weight to the device. It also supports wired PD charging up to 20 W via USB-C and USB-A, providing convenient top-ups at work, while travelling and every day.

Product features

Charging source	USB
Battery capacity	5000 Ah
USB Power Delivery (USB PD)	Yes
Charger compatibility	Universal
Built-in radio	No
Input interface	USB typ C
Battery technology	Lithium Polymer (LiPo)
Product colour	Graphite
Built-in display	No
3G/4G USB modem compatibility	No
Type	MAGSAFE

Full product description

Additional power always at hand

The Extralink MagSafe powerbank offers a capacity of 5000 mAh and energy of 19.25 Wh, helping to extend your phone's battery life away from home. According to the data shown in the graphic, it can recharge the iPhone 16 and iPhone 16 Pro up to 82%, and the iPhone 16 Pro Max up to 63%. The actual charge level depends on the phone model, usage and charging conditions.

Wydłuż czas pracy baterii*

Model iPhone'a	Procent ładowania
iPhone 16	82%
iPhone 16 Pro	82%
iPhone 16 Pro Max	63%

103 × 68 × 6,9 mm

Wireless charging with up to 15 W

Support for wireless charging with up to 15 W allows you to top up the battery without connecting a cable. The magnetic attachment makes it easy to position the powerbank correctly on the body of a compatible phone and means the device can accompany the user even while travelling.

Energia w mgnieniu oka
Bezprzewodowe ładowanie 15W

- Silniejsze połączenie magnetyczne
- Zatwierdzony do transportu lotniczego

Slim design and 5000 mAh capacity

The housing, just 6.9 mm thick, means the powerbank does not take up much space and fits comfortably in a pocket, bag or backpack. Despite its compact dimensions, the device offers a 5000 mAh capacity, useful during work, travel and everyday activities.

Compatibility with a magnetic case

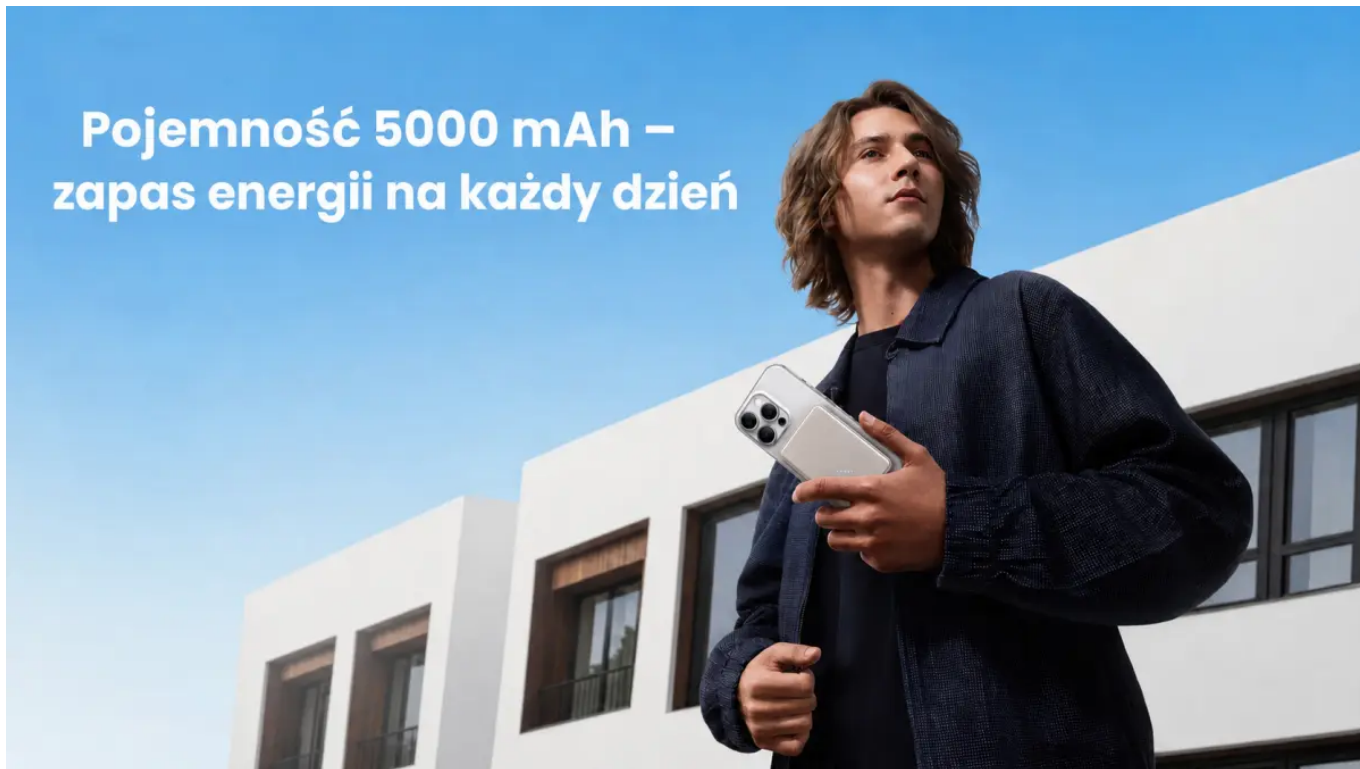

The powerbank can be attached directly to a compatible phone or used together with a magnetic case. A case without a magnetic ring may reduce the strength of the attachment, so it is worth choosing a cover designed for MagSafe accessories.

Reserve power for everyday activities

The 5000 mAh capacity helps recharge your phone during the day when access to a socket is limited. The powerbank also supports wired PD charging at up to 20 W and offers USB-C and USB-A ports, giving you the flexibility to match the charging method to the device you are using.

**Pojemność 5000 mAh –
zapas energii na każdy dzień**

Magnetic attachment and low weight

The built-in magnet array keeps the powerbank securely positioned on the back of a compatible phone. The design weighs just 105 g, so it does not add significant bulk to the device and makes it easier to use while wirelessly charging.

105 g

Ergonomically shaped housing

The rounded 5D edges improve comfort when holding the phone with the powerbank attached. The soft silicone finish helps protect the device surface from scratches, while the slim profile makes it easier to use the smartphone without having to disconnect the additional power source.
