Potensic

Manufacturer: POTENSIC

Referention number: DNXXGKOKJFRMMIH

Information:

ATOM 3 is a lightweight drone weighing under 249 g, which means it can be used in many countries without training or certification. It offers HD transmission up to 16 km, a stable image and low latency, while the built-in 5.5" FHD 900-nit screen provides convenient viewing even in bright sunlight. The camera with a 1/1.3" sensor records in 4K/60 fps and takes 50 MP photos, and AI Night Mode improves the quality of night shots. The drone supports smart functions such as AI Tracking 2.0, QuickShots, Waypoint and creative modes, while propeller guards and AR RTH enhance safety. The battery provides 40-50 minutes of flight time, and fast charging and the Potensic Eve app make operation, media management and content sharing easier.

Product features

Type	Standard Remote Fly More Combo
------	--------------------------------

Full product description

Freedom of Flight and Lightness

ATOM 3 weighs under 249 g, allowing it to be used freely in most countries and regions without the need for training or certification. It enables you to capture every moment anywhere, anytime, offering complete flexibility in creating aerial video and photography content.

Potensic

ATOM 3

Lataj swobodnie.
Nagrywaj jak profesjonalista.

Connectivity and Smart Features

HD video transmission over a distance of up to 16 km at 10 Mbps and a tri-band transmission system ensure a stable image and low latency. The built-in 5.5" FHD screen with 900 nits of brightness allows viewing in full sunlight. ATOM 3 supports AI Tracking 2.0, QuickShots (Boomerang, Rocket), Waypoint, Dolly Zoom, Spin Ascend, Spiral and Drift. The propeller guard and AR RTH system ensure flight safety.

Ulepszona transmisja HD na odległość 16 km

Zasięg transmisji sięga do **16 km***, a przekaz wideo
oferuje wysoką jakość obrazu **1080p/60 kl./s.**

*Pomiar wykonano w otwartej przestrzeni, bez zakłóceń i przeszkód.

Professional Image Quality

The 1/1.3-inch sensor enables recording 4K/60 fps video and taking 50 MP photos. AI Night Mode delivers a clear image in low light, while city neon lights are rendered without overexposure, producing realistic and highly detailed night shots.

Znakomita jakość obrazu

Wyposażony w ulepszony duży sensor **1/1,3 cala**, rejestruje wideo **4K/60 kl./s** oraz zdjęcia **50 MP**, zapewniając profesjonalne efekty podczas nagrywania na zewnątrz.

Convenience and Media Management

The ability to instantly switch between landscape and portrait shots, together with the Potensic Eve app, makes operation, media management and quick content sharing easier. Browsing albums, playing flight recordings and categorising SD files makes it easy to find the materials you need quickly.

Wyraźny obraz nocą i żywe krajobrazy

Tryb nocny AI rejestruje ostre i wyraźne ujęcia nawet przy słabym oświetleniu. Miejskie neony pozostają jasne przy **zminimalizowanym prześwietleniu**, dzięki czemu każde nocne ujęcie zyskuje więcej detali.

Performance and Power

ATOM 3 has a battery that provides 40–50 minutes of flight. The parallel charging station supports three batteries at once, and standard batteries charge in 90 minutes, long-range batteries in 135 minutes. The Power Accumulation function consolidates remaining energy, maximising the drone's readiness for flight.

Wydłużony czas pracy baterii

Czas działania został wyraźnie zwiększony dzięki akumulatorowi o większym zasięgu. Długi czas lotu wynoszący 40/50 minut* pozwala nagrywać bez ograniczeń.

50 min

Akumulator o
zwiększonym zasięgu

40 min

Akumulator
standardowy

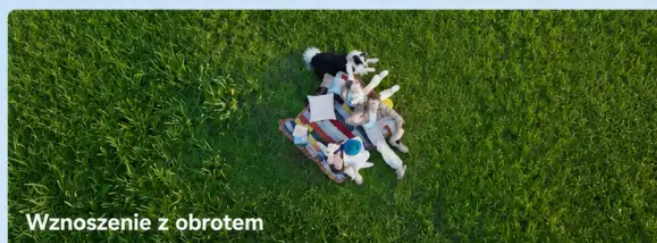

*Pomiar w kontrolowanych warunkach.

Zoom and Portrait Mode

The Med-Tele mode (48 mm) enables 4x 4K video zoom, capturing detailed portraits and landscapes without loss of quality. The intelligent portrait mode automatically optimises lighting and skin tones, ensuring vivid and natural shots of people and nature.

Kinowe ujęcia AI jednym dotknięciem

AI QuickShots obejmuje teraz **tryb Drift** uruchamiany jednym dotknięciem oraz ulepszony **tryb Rocket** z ujęciem **Spin Ascend**, co pozwala łatwo tworzyć jeszcze bardziej filmowe kadry.

Kit Contents

- 1 × ATOM 3 Drone
- 1 × Remote Controller
- 1 × Gimbal and Propeller Guard
- 3 × Intelligent Battery
- 1 × USB-C Cable
- 1 × USB Lightning Cable
- 1 × Charging Station
- 1 × Type C-C Charging Cable

- 4 × Spare Propellers (2 pairs)
- 1 × Shoulder Bag
- 1 × Controller Strap
- 4 × Spare Screws
- 1 × Screwdriver
- 1 × Charging Station User Manual
- 1 × Quick Start Guide

Technical Specifications

Parameter	Details
Weight	<249 g
Sensor	1/1.3 inch
Video resolution	4K/60 fps
Photo resolution	50 MP
Night mode	AI Night Mode
Med-Tele mode	48 mm, up to 4x 4K video zoom
Slow motion	7x
Battery	6200 mAh (standard), flight time 40–50 min
Fast charging	up to 65 W, standard battery 90 min, long-range battery 135 min
Video transmission	HD 1080p/60 fps, 10 Mbps, range up to 16 km
Transmission system	2.4 GHz, 5.2 GHz, 5.8 GHz (tri-band)
Parallel charging station	3 batteries
GNSS start	quick start, reducing connection time by 50%
Smart features	AI Tracking 2.0, QuickShots (Boomerang, Rocket), Waypoint, Dolly Zoom, Spin Ascend, Spiral, Drift
Propeller guard	full, enhanced protection
RTH system	AR RTH with point and flight path visualisation
Photo mode	landscape and portrait
App	Potensic Eve, file management, flight record playback, albums, online preview, video bookmarking
