Full product description

Create Any Shape

Meet the new generation of **Govee Neon Rope Light 2**, which allows you to shape the lighting as you wish. With flexible materials and advanced technology, you can easily customize the lighting to suit your needs and preferences.

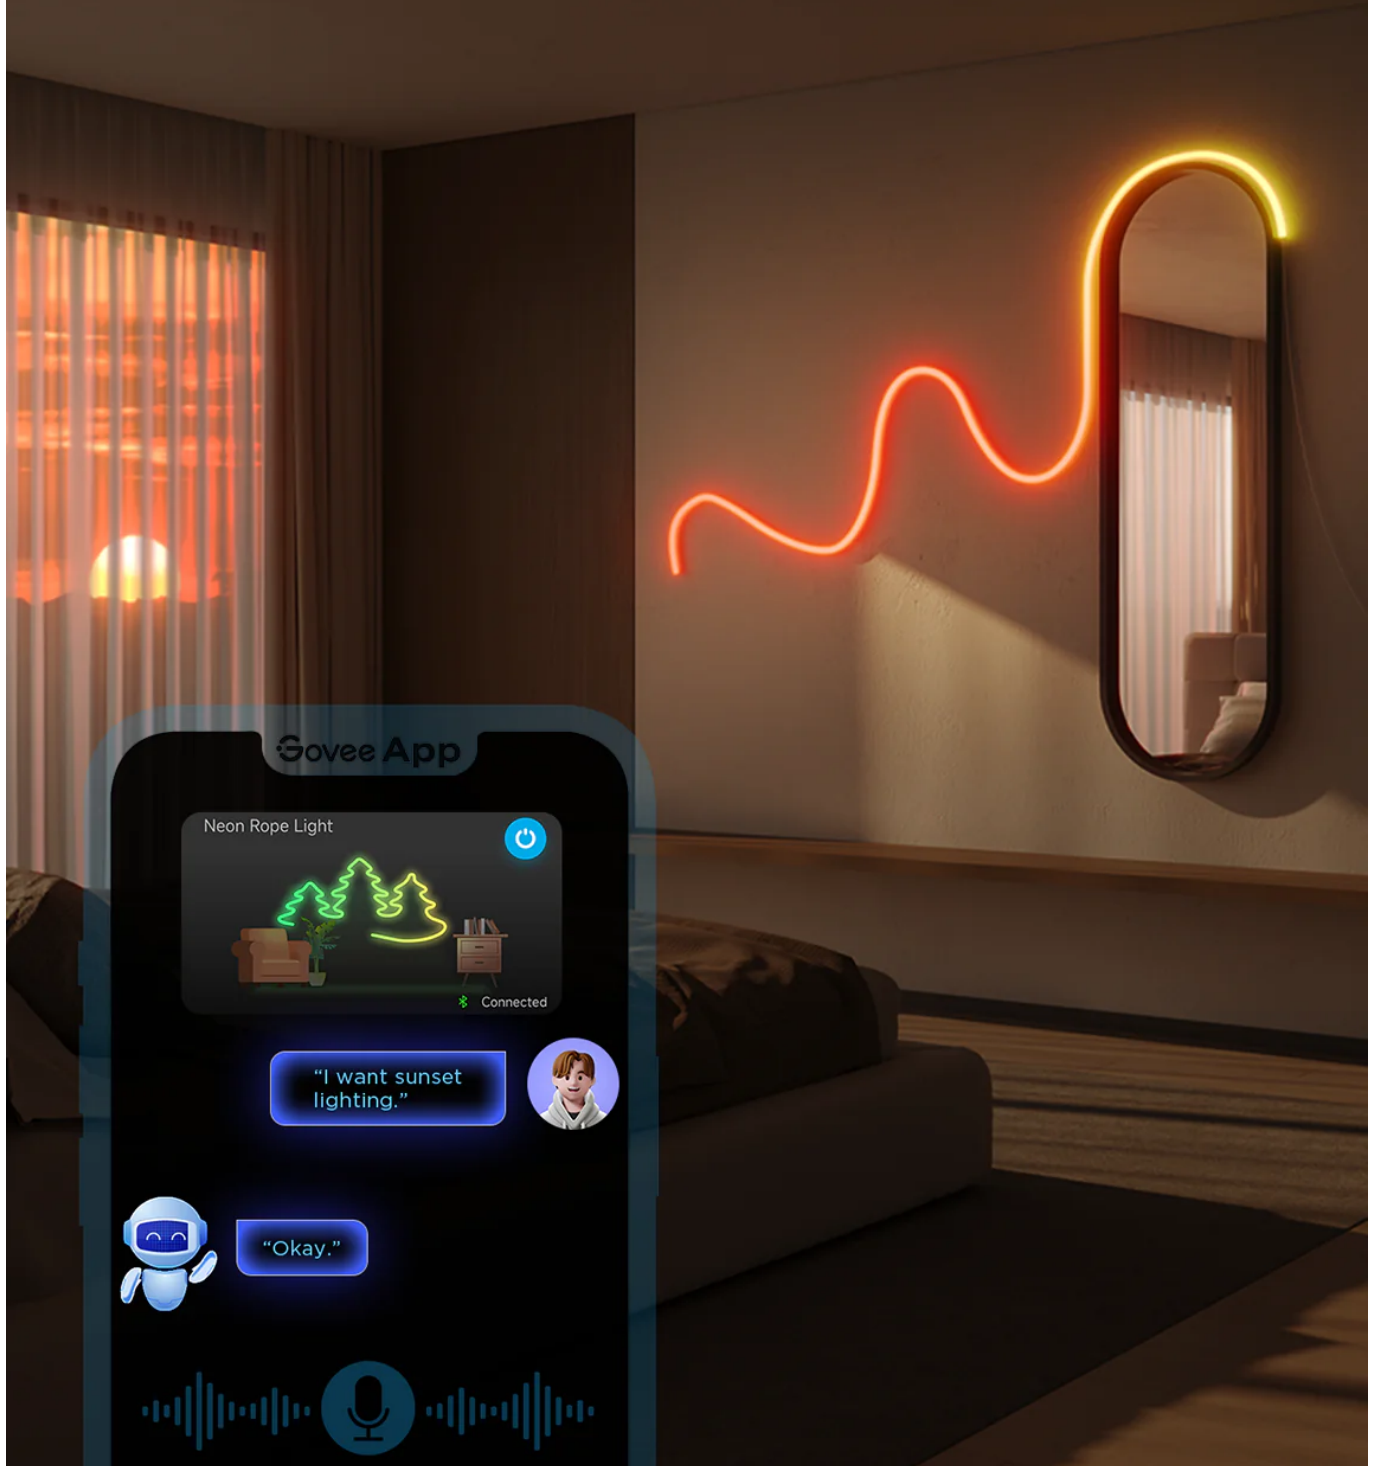

Unique Features and Benefits

The **Govee Neon Rope Light 2** offers unique features such as shape mapping, softer and more flexible materials, improved **RGBIC** effects, upgraded bending clips, **Matter** compatibility and smart controls. It's ideal for those who appreciate modern and stylish lighting.

AI Lighting Bot

Explore Your Creativity with AI Content

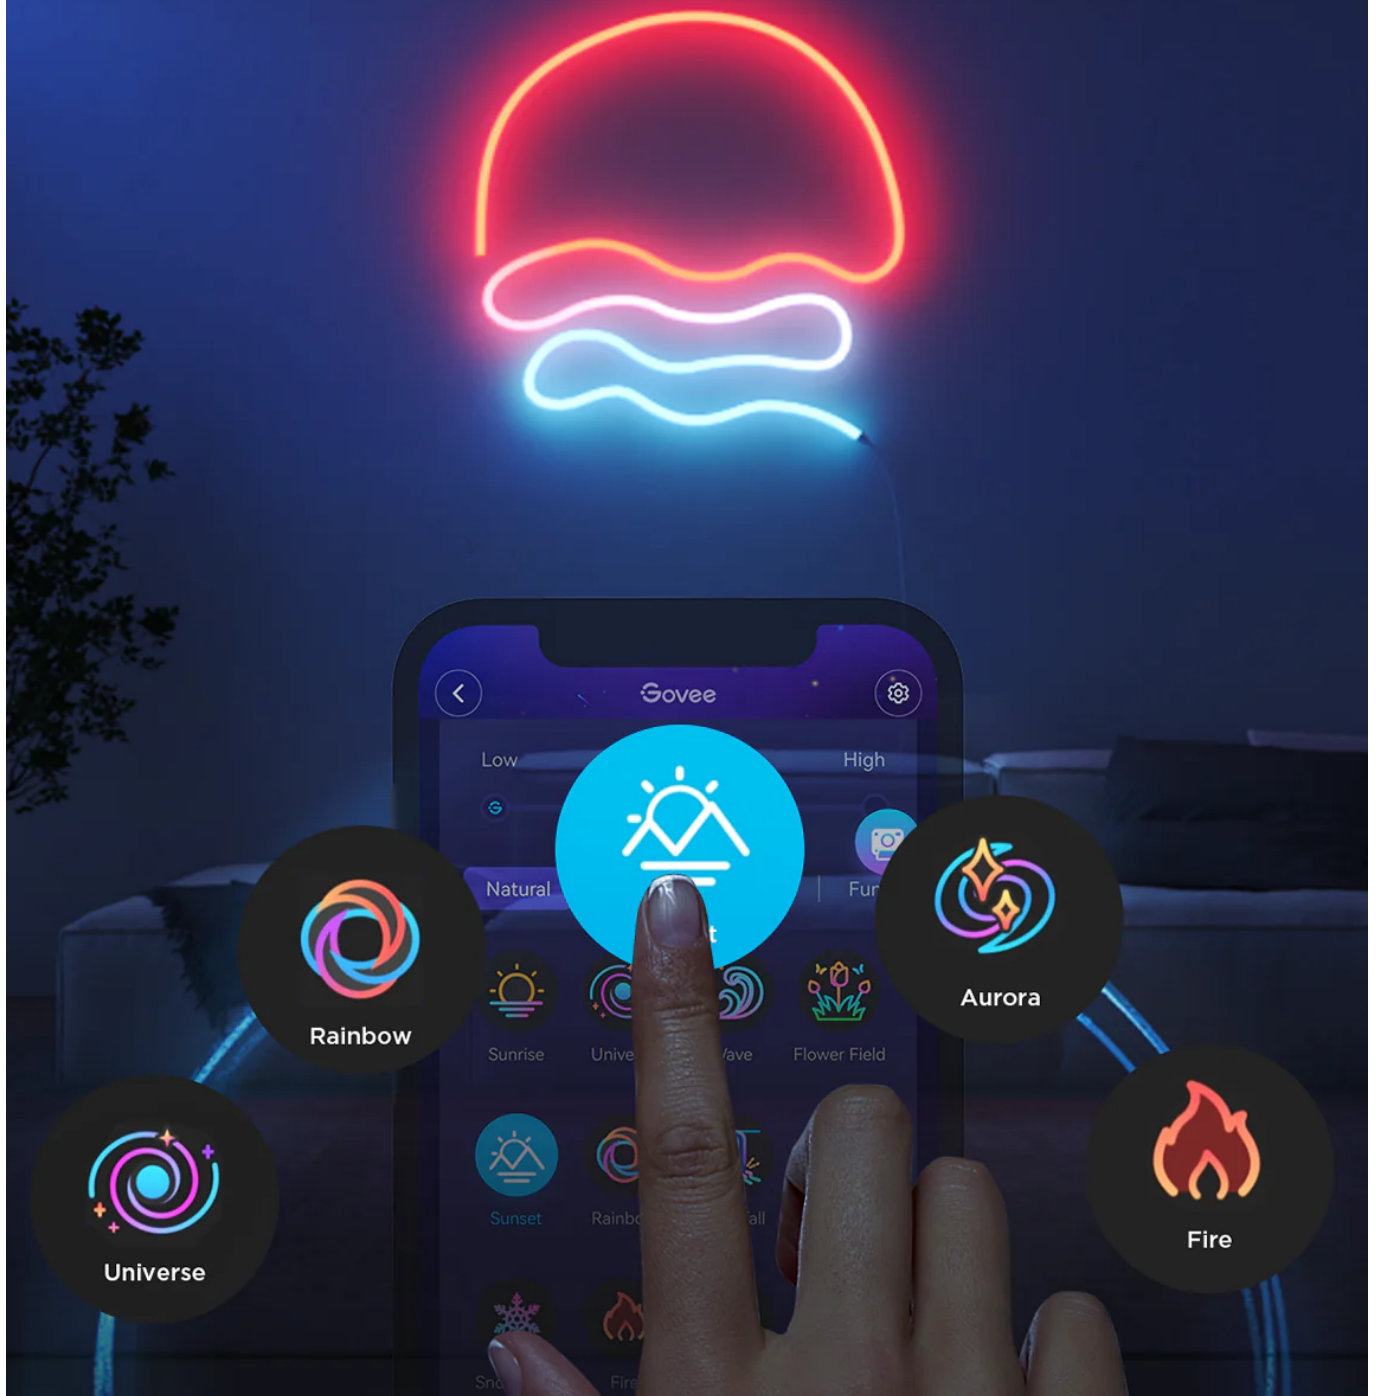

More Advanced DIY

Govee 's new generation of neon lights allows you to personalize lighting effects using the **Govee Home** app. With a shape-recognizing camera, you can easily apply a variety of **DIY** effects. Improved clips allow pre-bending for easy installation and seamless setup.

Improved RGBIC Lighting Effects

64 preset lighting effects

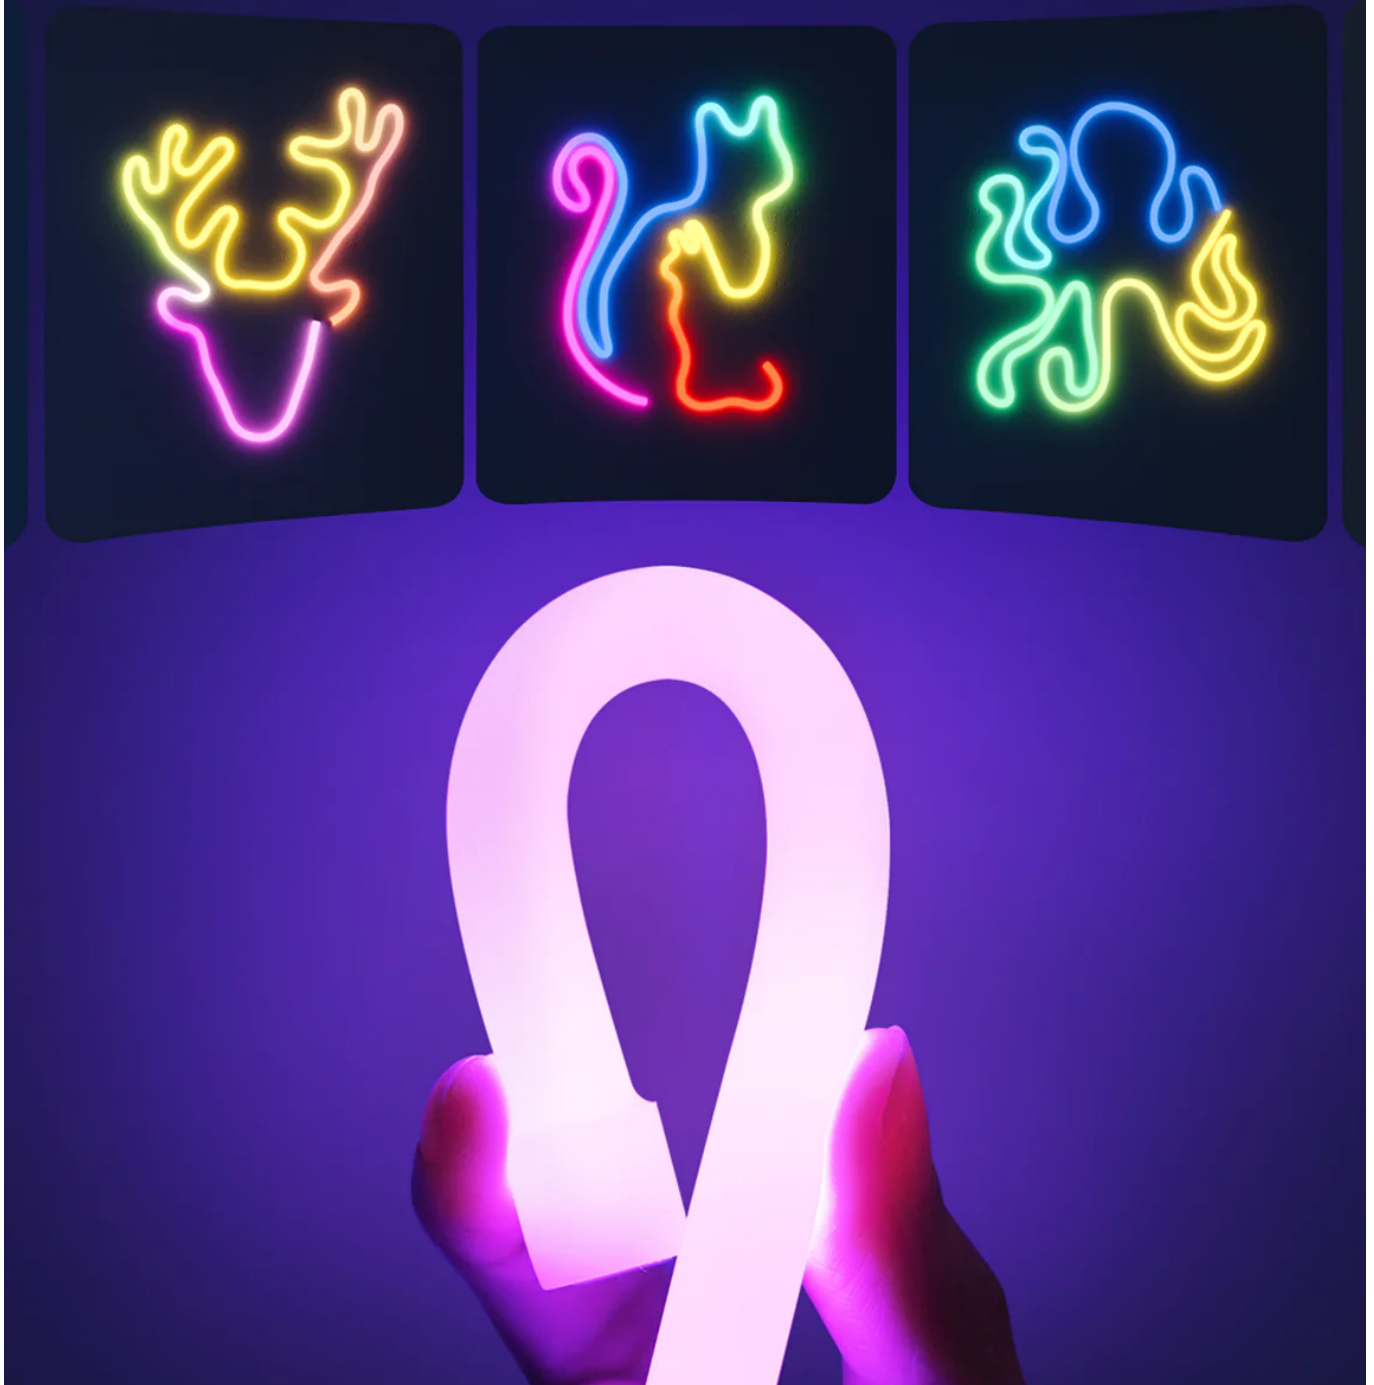

Increased Flexibility

The light is made of softer material, which increases flexibility by **14%** compared to the previous generation. The smaller size and lighter design makes it easier to install and more convenient to use.

Softer Flexible Material

14% increased flexibility

A Guide to Shape Mapping

Using the **Shape Mapping** function, you can easily capture and identify shapes, define start and end points, and connect to **Wi-Fi** to enter **DIY** mode. Personalize the colors and effects of your light strip according to your preferences, enjoying a unique and personalized lighting experience.

Shape Mapping

Easy color customization and directional flowing effects

Elevate the Style of Your Space

The **Govee Neon Rope Light 2** is perfect for any space, including bedrooms, giving them a modern and stylish look. With customizable colors and effects, you can create a unique atmosphere that will enhance the character of your interior.

Matter Compatible and Smart Control

"Hey Siri, turn on the light."

"Okay."
