Full product description

Govee H7025 RGBICW Outdoor String Lights.

Stwórz magiczną atmosferę na swoim tarasie lub balkonie dzięki **Govee H7025 RGBICW Outdoor String Lights**. Te **inteligentne girlandy LED** oferują **16 milionów kolorów** i możliwość pełnej personalizacji oświetlenia, co pozwala na tworzenie wyjątkowych efektów świetlnych. Dzięki **technologii RGBIC** i pełnej integracji z systemami **Alexa** i **Google Assistant**, możesz z łatwością sterować oświetleniem, aby pasowało do każdej okazji.

Wide range of colors and modes

Govee H7025 offer **16 million colors** so you can customize the lighting to suit your mood or event. Choose from **40 scenario presets** that allow you to quickly set the right atmosphere for any occasion. In addition, the lights have the ability to **sync with music**, making the lighting respond to the beat of your favorite songs to create a dynamic and energetic atmosphere.

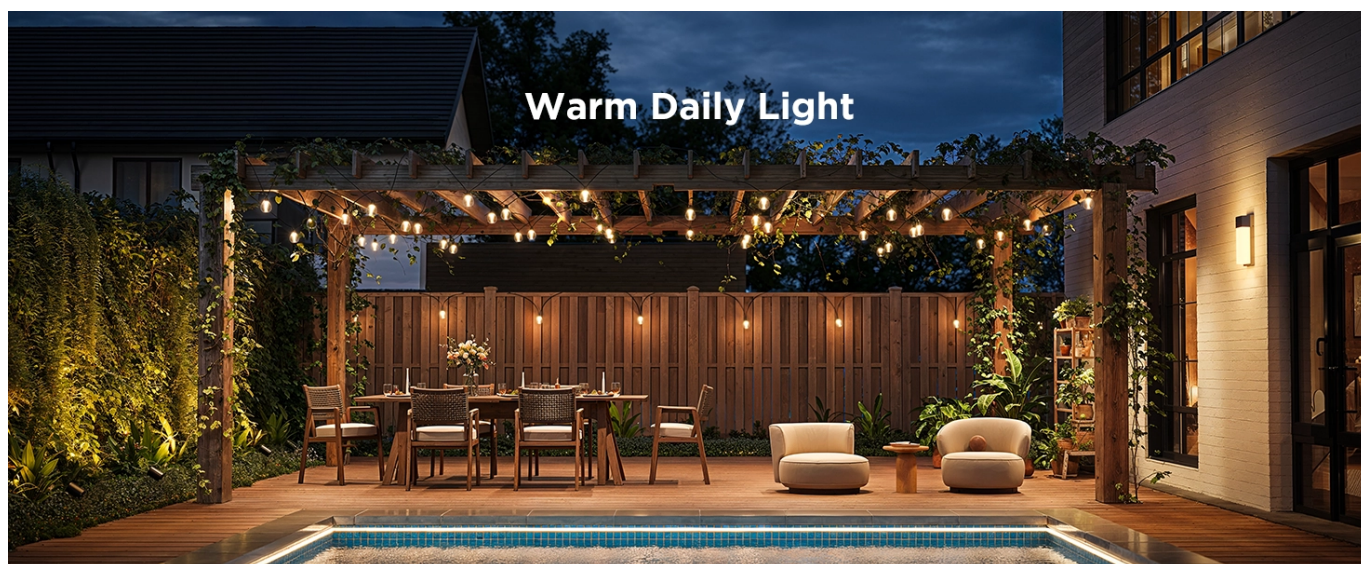

Weather resistance

Govee H7025 have been designed for outdoor use with **IP67 water resistance**, which means they will function perfectly in rain, snow or strong sunlight. Thanks to this resistance, the garland is ideal for **the garden, terrace or balcony**, even in harsh weather conditions. **The housing of the lamps** is made of **high-quality materials** that ensure durability and resistance to mechanical damage.

Easy control and integration

Govee H7025 allow for **convenient control** via the **Govee Home app**, as well as by voice through **Alexa** and **Google Assistant**. You can **change the colors, modes and brightness** of the lights using your phone or by issuing voice commands, which greatly simplifies operation. **Matter compatibility** makes the product seamlessly connect to your smart home system, offering even more convenience.

Energy efficiency and comfort

The Govee H7025 is an **energy-efficient** solution that allows for long-term use without worrying about high electricity bills. Thanks to **LED technology** and **smart energy management**, these garlands offer efficient lighting with minimal energy consumption. **The brightness control** allows you to adjust the amount of light as needed, so you can use them to create both a cozy atmosphere and more intense lighting.
