Comfort and fit for every figure

The protectors are designed for maximum comfort. Thanks to the **elastic straps with Velcro adjustment**, it is possible to perfectly **adjust** the protectors to the figure. **The EVA foam padded interior** guarantees softness and cushioning, protecting your joints from injury during falls and impacts. You can fully focus on your activities without worrying about discomfort.

Rugged construction and durable materials

Made of high-quality materials such as **polycarbonate**, **1000D polyester**, **nylon** and **lycra**, the protectors are resistant to mechanical damage, which means they will serve for a long time, even in the most demanding conditions. In addition, the **aluminum rivets and pins** used provide even greater durability, making the protectors ready for any adventure.

Stability and full freedom of movement

Thanks to the **Altalock quick-release fastening system**, the protectors fit securely on the body while not restricting movement. Even during dynamic activities, the protectors do not move, providing uninterrupted protection. It's ideal for those who need maximum mobility and dynamics while in the field.

Versatility and functionality

The protectors are available in a **universal size**, so they fit a variety of silhouettes. Their **ergonomic design** makes them easy to put on and take off, which makes them extremely functional and comfortable to use. Thanks to the brown color scheme, the protectors fit perfectly with the rest of the tactical equipment.
