Full product description

Transform your outdoor space with the Govee H70A1 Outdoor Strip Light Pro

This 10-meter-long smart LED strip provides rich, colorful lighting, perfect for patios, gardens or balconies. Thanks to RGBICWW technology, you can enjoy an infinite color palette and dynamic lighting effects that you customize using the Govee Home app or voice control.

Advanced technology for dynamic effects

The Govee H70A1 uses **RGBICWW technology**, which means that each segment of the LED strip can be controlled independently, offering smooth color transitions. With **180 points of light** on 10 meters, you can customize colors and scenes to create the perfect atmosphere for any occasion. Personalize the lighting to add flair to your garden or outdoor event.

Water resistance and outdoor durability

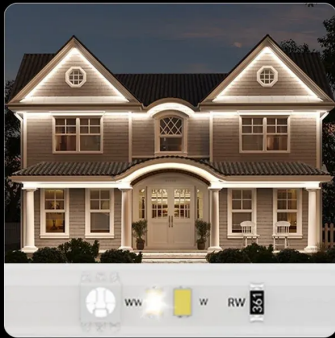

The Govee H70A1 Outdoor Strip Light Pro has an **IP65 waterproof** rating , making it ideal for outdoor use regardless of weather conditions. The strip is resistant to rain, dust and moisture, as well as various temperatures, which guarantees the durability and longevity of the lighting. The power adapter has **IP44** protection , further ensuring safe use.

Voice control and app

Control your lighting easily with **Google Assistant, Alexa** or **the Govee Home app**. You can change colors, adjust brightness and activate light modes with voice commands or remotely via Wi-Fi or Bluetooth. Full smart home integration provides convenience and allows you to customize lighting to your preferences with a single touch.
