Product colour	Translucent
Type	Smart string light

Full product description

Immerse yourself in a magical world of light!

With Wi-Fi and Bluetooth control features, and support for voice assistants such as Google Assistant and Alexa, you can easily control the lights with the Govee Home app. These curtain lights are the perfect choice if you want to add a touch of magic to any moment, from quiet evenings to dynamic parties.

Equipped with 400 LEDs for excellent light density

The Govee H70BC offers extremely **dense illumination** thanks to its 400 LEDs, providing vivid and dynamic lighting effects. The excellent density of LEDs allows you to display more detailed patterns and smooth color transitions. This will turn any interior into an enchanting haven, full of amazing visual effects.

Hands-Free Control

Intelligent control and full personalization

Thanks to RGBIC technology and the **Govee Home app**, you can easily control the lighting, customizing the colors, brightness and light modes for any occasion. The ability to choose from 16 million colors and the DIY mode allow you to personalize a lighting choreography that perfectly matches your mood or event. **Voice control** gives you full control without having to raise your hand.

Installation and various mounting options

Installation of the Govee H70BC LED curtain lights is easy with the included hooks and adhesive tape. You can easily choose the best installation method depending on your space and preference.
