Price: **29.90 zł** gross / 24.31 zł net

Manufacturer: EXTRALINK

Referention number: DNXGKPLERMMKO

Information:

Extralink Smart Wi-Fi Socket is a smart socket for remote control of the power supply to electrical devices via a home 2,4 GHz Wi-Fi network. Thanks to the Extralink Smart Life and Tuya Smart apps on Android and iOS, you can conveniently switch equipment on and off from your smartphone, and integration with Google Assistant and Amazon Alexa enables voice control. The socket supports a load of up to 16 A and 3600 W at 230 V AC, has compact dimensions of 84 × 50 × 50 mm and Schuko earthing, ensuring convenient and safe use at home or in the office.

Product features

Connectivity technology	Wired
Maximum input power	3600 W
Product colour	White
Built-in display	No
Designation	Indoor

Full product description

Smart Wi-Fi Socket

Extralink Smart Wi-Fi Socket enables remote control of the power supply to connected electrical devices. The socket communicates with the home Wi-Fi network and allows equipment to be operated using a smartphone, so the user can conveniently manage selected devices in their home.

App control

Operation via the Extralink Smart Life and Tuya Smart apps allows the socket to be controlled from mobile devices running Android and iOS. This solution makes power management easier without the need to use the physical button on the casing each time.

Voice command support

Integration with Google Assistant and Amazon Alexa enables control of the socket using compatible voice commands. This feature helps you conveniently switch connected devices on and off, especially when your phone is not within reach.

Load up to 3600 W

The socket supports a maximum load of 16 A and 3600 W, so it can work with many electrical devices that meet the specified power requirements. The device is designed to operate with an input voltage of 230 V AC and a frequency of 50 Hz.

2.4 GHz Wi-Fi connectivity

Communication takes place via a Wi-Fi network operating in the 2.4 GHz band. The socket supports IEEE 802.11 b/g/n standards, which allows it to be connected to a compatible router and integrated into a home smart control system.

Compact design

The 84 × 50 × 50 mm dimensions mean that the socket takes up little space and can be conveniently used at home, in the office or in another room with a suitable electrical installation. The Schuko earthing used allows it to work with compatible plugs and electrical sockets.

Specification

Parameter	Details
Input voltage	230 V AC / 50 Hz
Maximum load	16 A, 3600 W
Wi-Fi standard	IEEE 802.11 b/g/n
Wi-Fi frequency	2.4 GHz

Parameter	Details
Apps	Extralink Smart Life, Tuya Smart
Supported systems	Android, iOS
Voice assistants	Google Assistant, Amazon Alexa
Earthing	Schuko
Dimensions	84 × 50 × 50 mm
