Mobile operating systems supported	Android
Bulb power	24 W
Product colour	Silver
Type	Smart wall light

Full product description

Govee H8048 Gaming Light Bars Pro - Your key to a new quality of gaming lighting

Govee H8048 Gaming Light Bars Pro to rozwiązanie stworzone z myślą o graczach, którzy pragną w pełni zanurzyć się w wirtualnych światach. Dzięki innowacyjnej technologii synchronizacji oświetlenia z ekranem, możesz poczuć jeszcze większą intensywność emocji w trakcie rozgrywek. To urządzenie nie tylko podnosi komfort gry, ale także poprawia atmosferę, tworząc spektakularny efekt świetlny.

Three-sided lighting

The Govee H8048 light bar is distinguished by its unique **three-way lighting** effect that perfectly diffuses light on the walls, creating a fully immersive experience. The lights, offering **16 million colors** with high precision, illuminate the space around the monitor, producing deep, clear colors. Thanks to this technology, every scene in a game or movie gains a new dimension, providing even more visual experience.

Cyberpunk-inspired design

The use of **high-quality PC and metal materials** combined with an innovative coating process makes the Govee H8048 look modern and extremely durable. The product is resistant to damage, which ensures its longevity. So you can enjoy its appearance and functionality for a long time, even with heavy use.

Real-time synchronization

An advanced **real-time color synchronization** feature allows the lighting to match the content on the screen. With the Govee Desktop app (Windows) or a color detection device, the light dynamically changes with the image on the monitor. This is great for gamers who want their lighting to follow the action on the screen, creating a fully synchronized experience.

Smart Voice Control and integration with systems

The Govee H8048 supports **voice control** and is compatible with popular systems such as Alexa, Google Assistant, Matter and Razer and Corsair. Thus, you can conveniently manage your lighting with voice commands. In addition, the system offers **60 preset scene modes** and **8 music modes** that synchronize the lights to the rhythm of the music, providing a visual experience that matches the sound.
