Wi-Fi frequency	2.4
Voice control	Yes
Operating temperature (T-T)	-20 - 50 °C
Bulb type	LED
Package type	Box
Works with Amazon Alexa	Yes
Color Rendering Index (CRI)	80
International Protection (IP) code	IP66
Applications support	Yes

Energy efficiency scale	A to G
Luminous flux	1000 lm
Suitable for indoor use	No
Energy efficiency class	F
Placement	Ground
AC input frequency	50 Hz
AC input voltage	100 V
Energy consumption per 1000 hours	11 kWh
Light colour type	Multi
Product colour	Black
Type	Smart garden lighting
Product weight	2760 g

Full product description

Govee H8057 Outdoor Flood Lights 2 - Smart LED Outdoor Lighting.

Govee H8057 Outdoor Flood Lights 2 is an advanced **LED light** that combines functionality, style and cutting-edge technology. With high brightness, colorful **RGBWW** effects and easy control via app or voice, your outdoor space will get a whole new dimension. The lighting is ideal for home use, outdoor events or creating an atmospheric ambience.

Exceptional brightness and richness of RGBWW colors

Govee Flood Lights 2 offers **a brightness of 1000 lm per lamp** with adjustable color temperature from 2700K to 6500K. Built-in RGBWW technology allows for rich lighting effects in 16 million colors. **The 30% increase in brightness** makes the lights ideal for illuminating large spaces.

High resistance to weather conditions

With an **IP66 waterproof rating**, Govee Outdoor Flood Lights 2 are resistant to rain, dust and other harsh weather conditions. The lights can operate in temperatures **from -20°C to 50°C**, ensuring reliability in any season. The robust design makes them an ideal choice for outdoor use.

Easy control via app and voice

Govee LED lighting is compatible with the **Govee Home app**, which allows you to control light effects and modes via **Wi-Fi and Bluetooth**. Additionally, thanks to integration with **Alexa and Google Assistant**, you can control the lights with your voice, making it an extremely convenient solution for any smart home.

DIY modes, scene effects and synchronization with music

With numerous predefined light modes and a **DIY** function, you can create unique effects to suit your style. Synchronization with music allows you to dynamically change colors to the rhythm of sounds, which is perfect for parties and social gatherings. Govee Outdoor Flood Lights 2 is **the perfect tool for creating an unforgettable atmosphere.**
