Type	Smart wall light

Full product description

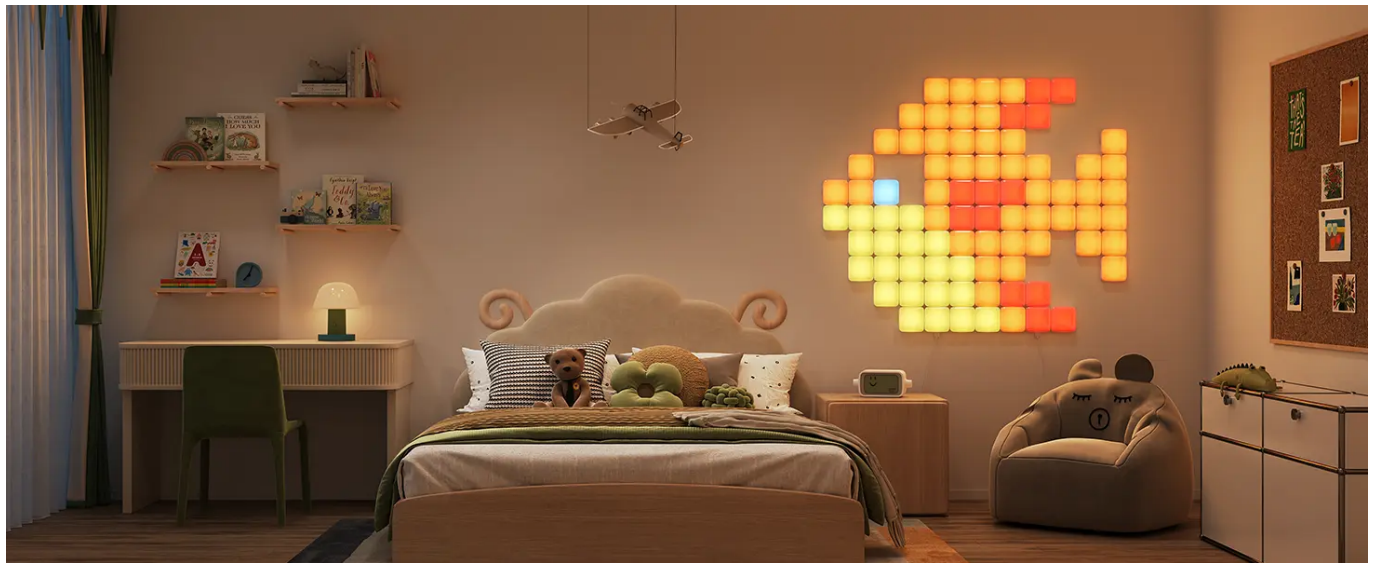

Govee H8069 Smart Mini Panel Lights (10 pack) - Smart LED Panels for your Home.

Transform your interior with **Govee Smart Mini Panel Lights**! These state-of-the-art RGBIC **LED panels** allow you to create breathtaking lighting effects and customize them to suit any mood. Easily control your lighting with the app, voice control with **Alexa** or **Google Assistant**, and add intelligence and style to your home.

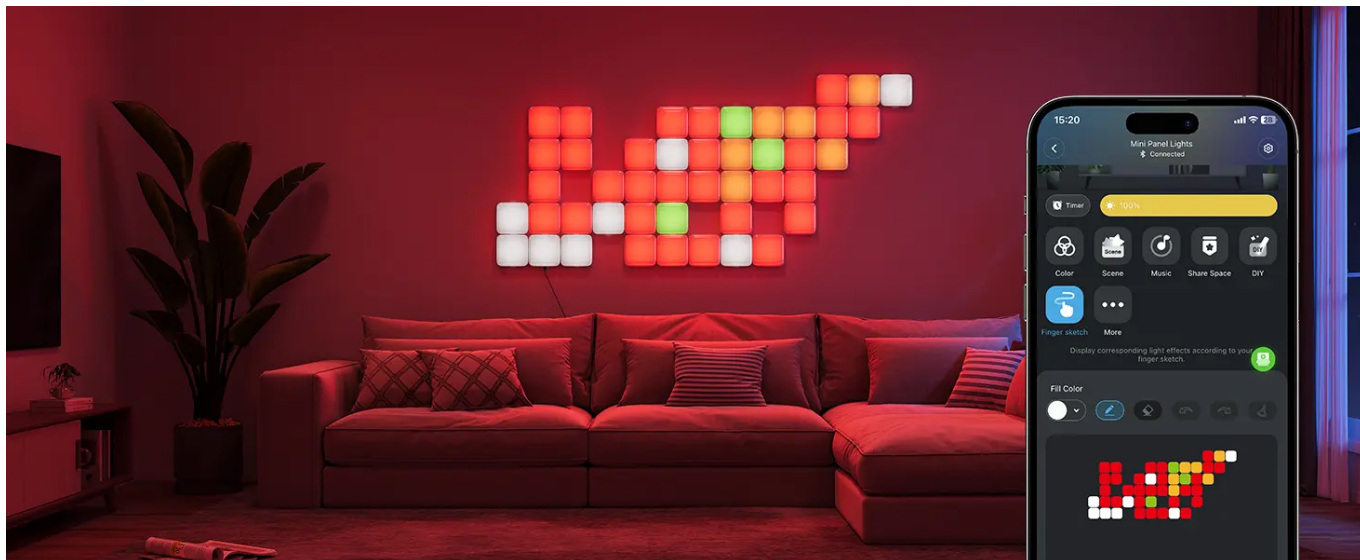

Unlimited DIY possibilities

Govee Mini Panel Lights allow you to **freely create unique shapes and patterns** thanks to a modular bonding system. The square panels can be joined on all sides, allowing for endless configurations. Add character to your space and personalize the lights to your liking.

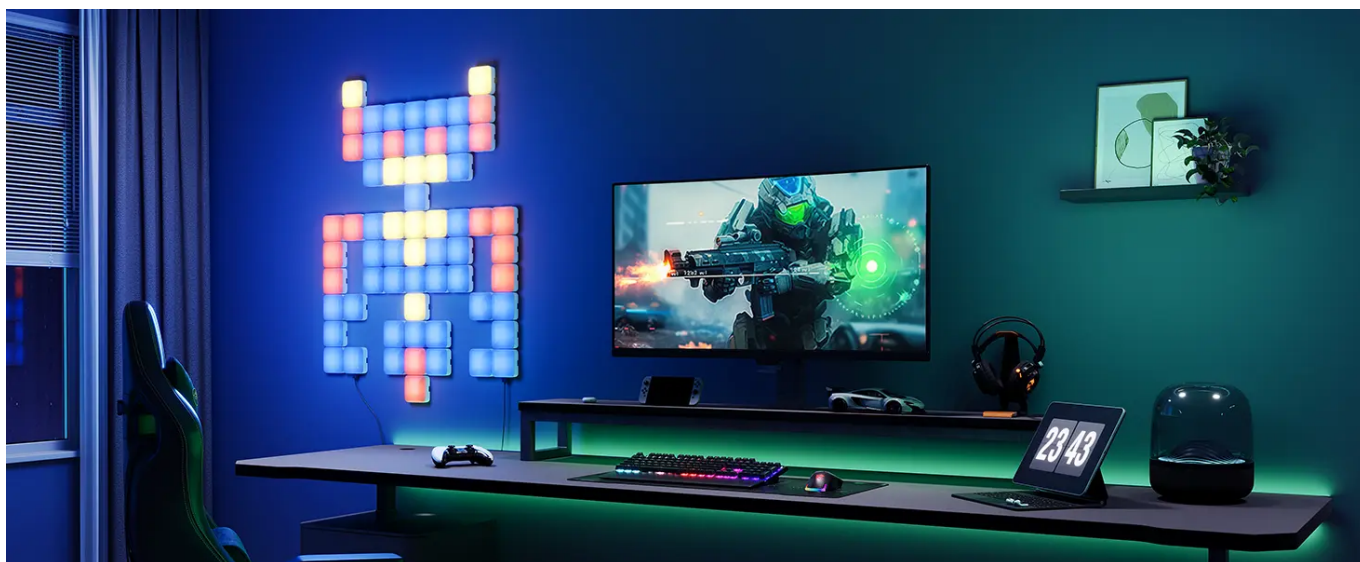

RGBIC technology for vivid colors

Thanks to **RGBIC technology**, each panel works independently to produce dynamic and multicolored lighting effects. **Transparent PC lamps** give the panels a dynamic and three-dimensional look, ideal for wall decoration. Vibrant colors and precise color mixing create a striking backdrop for games, work or relaxation.

Smart control and integration with Alexa

The panels are compatible with **Alexa**, **Google Assistant** and the **Matter** system for full voice control. Using the **Govee Home** app, you can easily customize light settings, choose from 50 light scenes, and synchronize lights with music.

Expandability and versatility

Govee Mini Panel Lights support up to **70 panels on a single power supply**, so you can expand your lighting installation to any size. These panels are ideal for a variety of rooms, such as **a bedroom, living room, children's room or gaming space**. Synchronization with music and dynamic lighting effects will bring magic to any space.
