Full product description

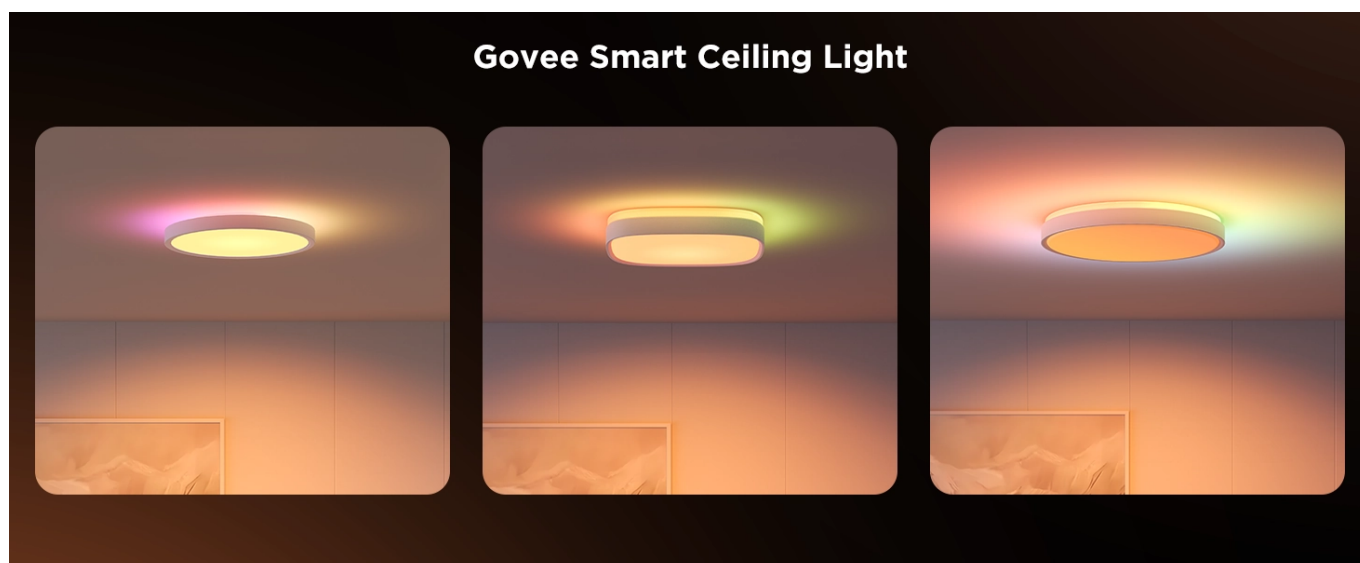

Govee H80A4 RGBWW RGBIC Square Smart Ceiling Light - Lighting that transforms a space.

Govee H80A4 RGBWW + RGBIC to lampa sufitowa, która pozwala na stworzenie unikalnej atmosfery w Twoim domu dzięki różnorodnym efektom świetlnym. Z możliwością pełnej kontroli nad jasnością, temperaturą barwową oraz kolorami, to doskonały wybór dla osób, które pragną oświetlenia dostosowanego do ich potrzeb. Dzięki integracji z aplikacją Govee oraz systemami głosowymi, możesz wygodnie sterować światłem z każdego miejsca.

Multicolor lighting

The Govee H80A4 lamp offers **RGBWW illumination** in the main light source and **RGBIC** in the background, allowing you to create **multi-colored lighting effects**. This allows the lighting in your home to be dynamic, energetic and changeable according to your mood. You can easily match colors to the occasion, providing the right atmosphere for any space.

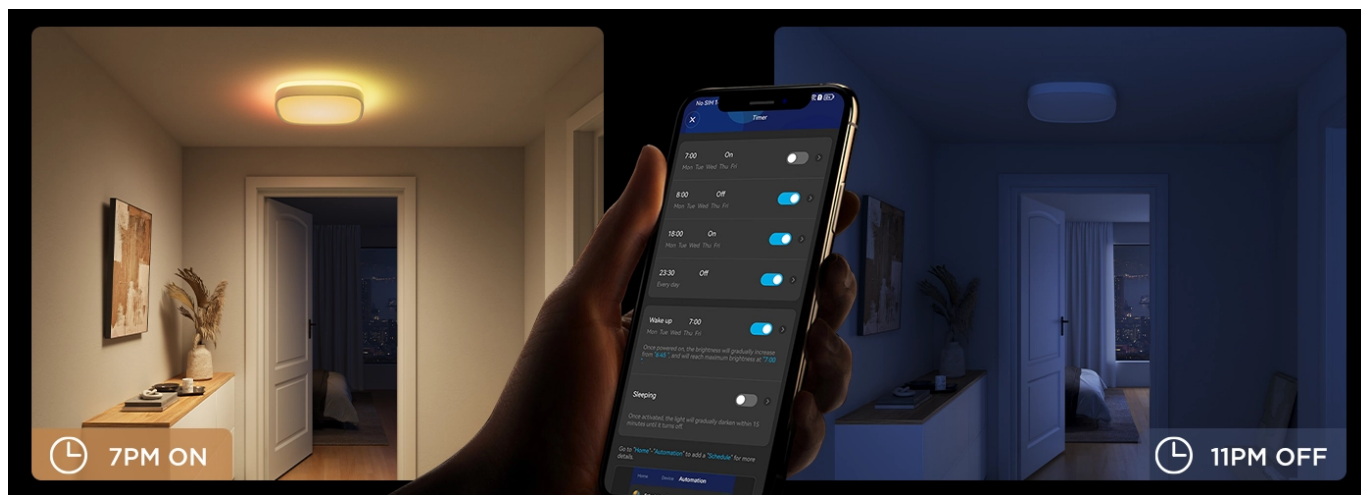

Adjustable brightness and color temperature

The lamp offers **full control over brightness** and a **color temperature range of 2700K to 6500K**, allowing you to set the perfect light for any occasion. You can adjust the light to fit your needs, from a warm light for relaxation to a cool light for work. With **adjustable brightness**, you can create lighting that is comfortable at any time of day.

Smart Control - full integration

With integration with the **Govee app** and compatibility with **Alexa and Google Assistant**, you can conveniently control **the smart ceiling light** without having to get up from your seat. **Wi-Fi and Bluetooth** allow for full control, and the ability to manage **groups of lights** gives you even more customization options. Easily create a smart environment in your home.

Available modes and lighting effects

The Govee H80A4 offers more than **70 scene modes**, as well as **music modes** that allow you to synchronize your lighting to the beat of your music. You can also save and set your own lighting effects via the app, customizing them to your preferences. In addition, the lamp supports a lighting **schedule**, allowing you to automatically turn the light on and off according to your activity hours.
