Information:

Lovro Bloomlight Cushion Blush 01 Apricot Whisper is a cushion blush that gives the complexion a fresh, natural flush and subtle radiance. The delicate apricot shade brightens the look of the skin and suits both everyday makeup and more defined looks. The light, fluid formula blends easily with the skin, creates soft transitions and allows you to build the intensity from a subtle hint of colour to more defined cheeks. The soft cushion makes application even and touch-ups throughout the day convenient.

Full product description

Natural blush effect

Lovro Bloomlight Cushion Blush 01 Apricot Whisper is a cushion blush that gives the complexion a fresh colour and subtle radiance. Its light, fluid formula blends into the skin, creating a naturally looking effect.

Apricot shade

Apricot Whisper is a delicate apricot shade that brightens the complexion and accentuates the cheeks. The colour works well both in light everyday makeup and in more defined looks.

Light fluid formula

The fluid consistency spreads easily on the skin and allows soft transitions without visible edges. The blush helps maintain a light, fresh makeup look.

Intensity under control

The formula allows coverage to be built up – from a delicate hint of colour to more strongly defined cheeks. Additional thin layers let you adjust the intensity of the blush to the occasion and the makeup look.

Cushion application

The soft cushion makes it easy to apply the product evenly and gently pat it into the skin. The compact form allows convenient makeup application and touch-ups throughout the day.

How to apply

Take a small amount of blush onto the cushion, then gently pat it onto the cheeks. Blend the colour towards the temples and, if needed, add another thin layer to intensify the effect.
