Information:

LOVRO Bloomlight Cushion Blush 02 Raspberry Cloud is a blush in a practical cushion format that gives the complexion a fresh, raspberry flush with a subtle, radiant glow. The light, fluid formula blends easily into the skin, ensures even application without a heavy layer effect, and allows you to build intensity from a delicate touch to a more pronounced colour. The soft puff makes precise, comfortable application and quick touch-ups during the day easier, while the compact case with a mirror works well at home and on the go.

Full product description

Fresh raspberry flush

LOVRO Bloomlight Cushion Blush 02 Raspberry Cloud is a cushion blush that gives the complexion a fresh, raspberry hue. Its lightweight formula creates a natural flush effect and subtly brightens the makeup.

Colour that blends into the skin

The fluid texture spreads evenly across the cheeks and blends softly with the skin. The raspberry shade enhances the complexion without a heavy layer effect, leaving a light, radiant finish.

Intensity under control

The formula allows the colour to be built up gradually - from a subtle touch to a more defined flush. Additional thin layers help adjust the blush intensity to the occasion and the rest of the makeup.

Convenient application

The soft puff makes it easy to apply the product and gently pat it into the skin. This method helps achieve an even result without streaks and quickly refresh the makeup during the day.

Practical cushion format

The compact case contains a formula-soaked cushion, a mirror and an applicator. Everything is close at hand, so the blush is ideal for makeup at home, while travelling and for quick touch-ups.

Skin kissed by light

Bloomlight combines a fresh flush with a soft radiance. Shade 02 Raspberry Cloud adds a raspberry tone to the face and helps achieve the look of luminous skin with a delicate glow.
