Full product description

Bloomlight Eyeliner

Bloomlight Eyeliner is a liquid eyeliner in an emerald colour that enhances the eyes and brings out the colour of the iris. The fresh, distinctive shade works both as a subtle accent and as the main feature of eye make-up.

Emerald accent

The emerald shade adds character to the eyes while remaining easy to pair with everyday make-up. It works well with neutral eyeshadows as well as more vivid colours.

Brush tip

The thin brush tip allows you to draw a line comfortably along the eyelid. It helps define the eye contour and refine the shape of the line according to the desired effect.

From thin to bold

The thickness of the line can be built up during application. A delicate line subtly defines the lashes, while additional strokes help create a stronger, more graphic effect.

Waterproof formula

The waterproof formula helps keep the line in place all day. The colour remains vivid, so eye make-up retains a polished look for many hours.

Make-up for every occasion

Bloomlight Eyeliner is ideal for daytime and evening make-up, as well as for creating colourful looks. The emerald line brightens the eyes and makes it easy to add a striking accent.
