Information:

Bloomlight Eyeshadow Palette is a versatile eyeshadow palette combining classic beiges and browns with a pink accent, luminous shades and pearly green. It allows you to create both subtle everyday looks and more striking eye make-up. Neutral colours work perfectly as a base and for shaping the eyelid, while shimmery and pearlescent tones add radiance, freshness and an original character. The palette makes it easy to adapt your make-up to the occasion and your mood.

Full product description

Bloomlight Eyeshadow Palette

Bloomlight Eyeshadow Palette is an eyeshadow palette in which classic beiges and browns meet a pink accent, luminous shades and pearly green. The colour selection allows you to create both understated and more expressive eye makeup looks.

Beiges and browns for everyday wear

Neutral beiges and browns create the base for many looks. They can be used to subtly define the eyelid, emphasise the crease or build a deeper effect suitable for evening makeup.

A fresh pink accent

The pink eyeshadow enlivens the composition and adds lightness to the eyes. It can be a delicate element of everyday makeup or a more noticeable accent combined with the neutral shades in the palette.

Luminous finish

Shimmering shades reflect the light and help brighten the eyelid. They can be applied to the entire mobile lid, to the centre of an already created look or to the inner corner of the eye.

Pearly green

Pearly green breaks up the neutral palette and allows you to add an unexpected character to your makeup. It works well as a single detail, a coloured line or the main shade in a luminous eye look.

Many makeup possibilities

The shades can be combined freely, moving from classic pairings to fresh, colourful compositions. Bloomlight Eyeshadow Palette lets you match your makeup to the occasion and your mood, while retaining the lightness and subtle glow characteristic of the collection.
