**Information:**

Bloomlight Freeze-Dried Highlighter is a freeze-dried face highlighter that gives the complexion a fresh, radiant glow without a heavy layer effect. The finely milled, lightweight formula applies easily, blends softly and works well with makeup, leaving a smooth, natural finish. The intensity can be built up from a subtle sheen to a more pronounced glow. Ideal for highlighting the cheekbones, brow bone, nose, Cupid's bow and inner corners of the eyes, it is suitable for both everyday wear and more glamorous occasions.

**Full product description**

**Bloomlight Freeze-Dried Highlighter - freeze-dried face highlighter**

Bloomlight Freeze-Dried Highlighter envelops the skin in a delicate glow and highlights selected areas of the face. The finely milled formula reflects light, giving the complexion a fresh, radiant look without a heavy layer effect.

### **Light texture**

The texture achieved through the freeze-drying process spreads softly on the skin and blends easily with the rest of your makeup. The highlighter leaves a smooth finish that does not overwhelm the complexion or conceal its natural appearance.

### **Glow tailored to you**

The intensity of the glow can be built up to suit the occasion and the chosen makeup look. One thin layer gives a subtle effect, while reapplying the product allows for a more visible, luminous finish.

### **Enhancing facial features**

The product can be applied to the cheekbones, brow bone, bridge of the nose, Cupid's bow and inner corners of the eyes. It allows you to accentuate selected areas of the face and add multidimensional radiance to your makeup.

### **For makeup for every occasion**

Bloomlight Freeze-Dried Highlighter works well for both light daytime makeup and more striking looks. The luminous finish complements pink, peach and neutral tones, creating a cohesive effect of a radiant complexion.

## Subtle Bloomlight glow

**Bloomlight - the lightness of colour and a glow that enhances the skin's natural beauty.** A delicate sheen revitalises the complexion, accentuates its features and harmoniously completes the whole makeup look. The effect remains fresh and radiant in both everyday and more striking styles.
