**Full product description**

**Subtle nude shade**

LOVRO Bloomlight Lipgloss 04 Nude Muse envelops the lips in a glassy shine and a muted pink-beige colour. The natural shade enhances the lips, giving them a fresh, fuller and more defined look.

### Convenient application

The soft applicator makes it easy to spread the gloss evenly and precisely define the lip contour. The enveloping formula creates a smooth layer without an unpleasant sticky feeling.

### Always at hand

The compact 5.5 g packaging easily fits into a make-up bag or a small handbag. The gloss lets you quickly refresh your make-up and restore a luminous finish to your lips throughout the day.

### Smooth veil of colour

The creamy Nude Muse shade combines subtle colour with a glass-like shine. The gloss can be used on its own or applied over lip liner and lipstick to give your make-up a more radiant finish.

### Fuller-looking lips effect

The glossy layer reflects light and visually enhances the volume and contour of the lips. The refreshing cooling effect pleasantly invigorates, helping to achieve a smoother and more defined look.

### Jewellery-inspired packaging

The transparent bottle with gold details and a closure resembling a pink stone gives the cosmetic a decorative character. Bloomlight combines subtle nude, glassy shine and a cooling effect in one gloss.
