Information:

LOVRO Bloomlight Lipgloss 02 Quartz Kiss is a lip gloss with a glassy pink sheen and pearly reflections that enhances the natural colour of the lips, visually smooths them and gives them a fuller appearance. The subtle, light pink shade can be worn on its own or applied over lipstick for extra shine. The comfortable, non-sticky formula spreads evenly, while the cooling effect pleasantly refreshes the lips. The handy 5,5 g pack makes the lip gloss easy to take with you and refresh your make-up during the day.

Full product description

Pink sheen

LOVRO Bloomlight Lipgloss 02 Quartz Kiss envelops the lips in a glassy shine with a subtle pink tone. The luminous finish enhances the natural colour of the lips and makes them look fuller and smoother.

Pearly reflections

Delicate particles reflect the light, creating an effect inspired by the glow of rose quartz and mother-of-pearl. The Quartz Kiss shade works beautifully on its own or as a luminous finish over lipstick.

Glow always to hand

The compact 5.5 g packaging fits easily into a make-up bag or handbag. This means you can quickly refresh your lip make-up and restore its luminous finish during the day.

Comfortable formula

The enveloping formula spreads evenly across the lips and does not leave an unpleasant sticky feeling. The cooling effect pleasantly refreshes and helps emphasise their smooth and defined appearance.

Subtle Quartz Kiss

The light pink colour with pearly reflections creates a transparent, luminous layer. The lipgloss can be applied gradually, adjusting the intensity of the shine to everyday or evening make-up.

Jewellery-inspired character

The transparent bottle and the closure resembling a pink stone give the cosmetic a decorative character. Bloomlight combines glassy shine, subtle colour and refreshing cooling in one lipgloss.
