Information:

LOVRO Bubble Foundation 01 Ivory is a lightweight, illuminating foundation with an airy formula that blends softly into the skin, evens out the complexion and gives a fresh, natural finish without a mask-like effect. It visually smooths the skin and enhances its natural radiance, ensuring a glowing, rested look. Coverage can be built from light to more pronounced by applying successive thin layers. The flexible texture spreads easily and ensures comfortable wear. Shade 01 Ivory is ideal for fair skin.

Full product description

Lightness captured in a foundation

LOVRO Bubble Foundation 01 Ivory is a foundation with an airy, illuminating formula. It blends softly into the skin, evens out its tone and leaves a fresh, naturally looking finish without the effect of a heavy layer.

Fresh and radiant complexion

The lightweight texture visually smooths the skin and brings out its natural glow. The foundation helps achieve the effect of a rested, radiant complexion with a soft, skincare-inspired glow.

Coverage tailored to your needs

The formula allows buildable coverage - from light tone evening to a more defined effect. Applying additional thin layers makes it possible to conceal selected imperfections without weighing down the skin.

Flexible formula

The airy texture spreads easily across the face and adapts to the skin. It helps create an even finish without a mask-like effect, while ensuring comfortable wear throughout the day.

Shade 01 Ivory

Shade 01 Ivory was created with fair skin in mind. It blends naturally with the skin tone, making it easier to achieve a seamless transition between skin and make-up.

How to apply

Shake the container before use. Apply a small amount of foundation with your fingers, a sponge or a brush. In areas requiring more coverage, apply another thin layer.
