Information:

LOVRO Bubble Foundation 02 Vanilla is a light, airy foundation with a brightening formula that blends softly into the skin, evens out the complexion and gives a fresh, natural finish without a heavy layer effect. It optically smooths the complexion, enhances its radiance and helps achieve a rested, glowing look. Coverage can be built from light to fuller by applying additional thin layers. The flexible texture spreads easily and ensures comfortable wear and a mask-free effect. Shade 02 Vanilla helps the make-up blend seamlessly with the skin.

Full product description

Lightness captured in a foundation

LOVRO Bubble Foundation 02 Vanilla is a foundation with an airy, illuminating formula. It blends softly into the skin, evens out its tone and leaves a fresh finish without the effect of a heavy layer.

Radiant and smooth complexion

The lightweight texture visually smooths the skin and highlights its natural glow. It helps achieve the effect of a rested, fresh complexion with a soft, skincare-like glow.

Coverage you can build

The formula allows you to build coverage - from light evening out of the complexion to stronger concealment of selected imperfections. Additional thin layers help tailor the effect without weighing down the skin.

Flexible formula

The airy texture spreads easily across the face and adapts to the skin. It creates an even, naturally looking finish without a mask-like effect, ensuring comfortable wear throughout the day.

Shade 02 Vanilla

Shade 02 Vanilla helps even out the complexion and achieve a seamless transition between the skin and make-up. The luminous finish makes the face look fresh and radiant.

How to apply

Shake the packaging before use. Apply a small amount of foundation with your fingers, a sponge or a brush. In areas requiring stronger coverage, add another thin layer.
