Information:

LOVRO Non-Transfer Lipliner is a creamy, gel lip liner in a pink shade that applies smoothly and allows you to precisely define the natural shape of the lips. The slim tip makes it easy to outline the contour, define the Cupid's bow and the corners of the mouth, as well as fill in the entire lips. The formula sets after application, is waterproof and helps keep make-up looking fresh without touch-ups. The twist-up design with no sharpener needed makes the product convenient to use at home and while travelling. Ideal as a long-lasting base for lipstick, gloss or lip oil.

Full product description

Defined lip contour

LOVRO Non-Transfer Lipliner is a gel lip liner with a creamy formula that glides smoothly over the skin and helps define the natural shape of the lips. The pink shade can be used both to outline the contour and to fill in the entire surface of the lips.

Creamy gel formula

The soft texture makes it easy to draw a line without pressing hard on the skin. The slim tip helps precisely define Cupid's bow and the corners of the lips, while also gradually building colour intensity depending on the desired make-up effect.

Always at hand

The twist-up design does not require a sharpener, making the lip liner convenient both when applying make-up at home and on the go. The slim casing takes up little space in a make-up bag, and the cap protects the tip during storage.

A formula that sets

After application, the gel formula sets, helping to maintain the defined contour and reduce the need for touch-ups. It allows you to enhance the shape of the lips and create a long-lasting base for lipstick, gloss or lip oil.

Waterproof finish

The waterproof formula helps keep your make-up looking neat during everyday activities. The lip liner enhances the natural beauty of the lips and can be used on its own when you want a soft, even effect in a pink shade.

Create your own lip combo

LOVRO Non-Transfer Lipliner works well with Non-Transfer Lip Oil. First outline the lips and gently fill them in with the lip liner, then apply the oil to combine the defined contour with a glossy finish.
