**Information:**

POPPY HEAD Bouncelight Creamy Highlighting Blush 02 Bluff is a creamy blush and highlighter in a pastel apricot shade that combines fresh colour with a soft, glass-like glow. The springy, mousse-cream formula spreads easily, blends into the skin and allows smooth transitions without a heavy effect. It gives the cheeks a natural flush, enhances facial features and makes the complexion look fresh and radiant, even after light powdering. The product works on the cheeks, temples and eyelids, allowing you to create a subtle, cohesive look.

**Full product description**

**Pastel apricot glow**

POPPY HEAD Bouncelight Creamy Highlighting Blush 02 Bluff is a creamy blush and highlighter in a pastel apricot shade. It combines fresh colour with a soft glow, blending into the skin without the effect of a heavy layer of make-up.

### **Springy formula**

The mousse-like, creamy, springy texture spreads easily on the skin. It allows you to achieve an even finish and soft transitions without clearly defined edges.

### **Colour and radiance**

The Bluff shade combines pastel apricot with a glass-like radiance. It adds colour to the cheeks, enhances facial features and makes the complexion look fresh and naturally luminous.

### **Visible even after powder**

The luminous finish remains visible even after lightly setting the make-up with powder. The product helps restore freshness to the complexion and accentuate the cheeks without an overly shiny effect.

### **For cheeks and eyelids**

You can apply the product to the cheeks, temples and eyelids. The multi-purpose formula allows you to create a cohesive face and eye make-up look in a subtle apricot tone.

### **Application method**

Take a small amount of the product with your fingertips or a synthetic brush. Gently pat it onto the cheeks, temples or eyelids, then gradually build up the intensity of the colour and radiance.
