Information:

POPPY HEAD Bouncelight Creamy Highlighter 01 Bubbly is a creamy highlighter in a champagne-gold shade that melts into the skin and gives it a fresh, natural glow without a heavy makeup effect. Its mousse-like, creamy, bouncy formula is soft, easy to apply and provides an even, glass-like finish that reflects light. The highlighter remains visible even after setting with powder, enhancing facial features and restoring freshness to the complexion. It works on the cheekbones, temples, Cupid’s bow and eyelids, allowing you to create a cohesive, luminous look.

Full product description

Champagne Glow

POPPY HEAD Bouncelight Creamy Highlighter 01 Bubbly is a creamy highlighter in a champagne gold shade. It blends into the skin, giving it a fresh, luminous look without the effect of a heavy layer of make-up.

Springy Formula

The mousse-like, creamy, springy texture is soft and pleasant during application. It spreads easily on the skin, allowing you to achieve an even glow with a light finish.

Sheet-like Finish

The highlighter creates a soft, luminous sheet-like effect that reflects light and accentuates selected areas of the face. The champagne shade adds radiance to the complexion while keeping it fresh and natural-looking.

Glow Even After Powder

The formula remains visible even after lightly setting the make-up with powder. It helps define facial features and restore freshness to the complexion without an overly shiny finish.

For Face and Eyelids

You can apply Bouncelight to the cheekbones, temples, Cupid’s bow and eyelids. The multi-purpose formula allows you to create a cohesive, luminous make-up look for the face and eyes.

How to Apply

Take a small amount of product with your fingertips or a synthetic brush. Gently pat the highlighter onto selected areas of the face or onto the eyelids, then gradually build up the intensity of the glow.
