Information:

POPPY HEAD Bouncelight Creamy Highlighting Blush 03 Cheekup is a creamy, bouncy highlighting blush in a coral-apricot shade that gives the cheeks fresh colour and a soft glow without a heavy effect. The mousse-cream formula spreads easily, blends into the skin and ensures natural transitions and an even finish. The combination of colour and a glass-like glow brightens the complexion, and the luminous finish remains visible even after powdering. The product can be used on the cheeks, temples and eyelids, creating a cohesive, radiant face and eye look.

Full product description

Coral-apricot glow

POPPY HEAD Bouncelight Creamy Highlighting Blush 03 Cheekup is a creamy highlighting blush in a coral-apricot shade. It adds fresh colour and a soft glow to the cheeks without the effect of a heavy layer of make-up.

Springy formula

The mousse-cream, springy texture spreads easily on the skin. It blends with make-up, helping to achieve an even finish and naturally looking colour transitions.

Colour combined with glow

Cheekup combines coral-apricot colour with a soft, glass-like radiance. The formula enhances the cheeks, brightens the complexion and makes the skin look fresh and naturally radiant.

Visible even after powder

The luminous finish remains visible even after lightly setting the make-up with powder. The blush helps restore freshness to the complexion and accentuate the cheeks without an overly shiny effect.

For cheeks and eyelids

You can apply the product to the cheeks, temples and eyelids. The multi-purpose formula allows you to create a cohesive face and eye make-up look in a warm coral-apricot tone.

Application method

Take a small amount of product with your fingertips or a synthetic brush. Gently pat the blush onto the cheeks, temples or eyelids, then gradually build up the intensity of the colour and radiance.
